142612

FORMATION	GAS	PERCENT	CONDENSATE	PERCENT
Mesaverde	221 Mcfd	46%		46%
Dakota	263 Mcfd	54%		54%

**JUSTIFICATION OF ALLOCATION**

These percentages are based upon isolated flow tests from the Mesaverde and Dakota formations during completion operations. Oil was not present during flow test operations. For that reason, oil percentages are based upon the gas allocation and are provided in the event this wellbore begins producing oil at some point in the future.
