REQUEST FOR ADMINISTRATIVE APPROVAL FOR  
NONSTANDARD SPACING UNIT (NSP) & NONSTANDARD LOCATION (NSL) FOR  
YATES PETROLEUM CORPORATION'S  
VIERSEN FEDERAL #3  
1825' FSL & 1520' FWL SEC. 19, T. 30 N., R. 13 W., SAN JUAN COUNTY, NM

I. The well is on BLM surface and BLM oil and gas lease NMSF-078977. The well is NSP because there are only 90.8 acres in the "southwest quarter" (Lots 3 & 4 and E2SW4). A standard spacing unit must be  $\geq 70\%$  of a standard quarter section (160 acres). Thus, the 90.8 acres is less than the 112 acres (112 acres = 70% of 160 acres) needed.

The proposed location is NSL for the Fulcher Cliffs Pictured Cliffs due to topography (steep badland slopes). A standard location must be at least 660' from the quarter line. This well is staked 487' further east than is standard. (Closest standard location would be 1825' FSL and 1033' FWL.) The APD cover sheet is attached as EXHIBIT A.

II. A C-102 showing the well location and pro ration unit (Lots 3 & 4 and E2SW4) is attached (EXHIBIT B). Relevant parts of the lease (2,553.94 acres) are shown as solid lines on the attached (EXHIBIT C) composite copy of the Farmington North and Youngs Lake USGS topo maps.

The well encroaches on the SE4 Section 19, but no Pictured Cliffs acreage has been dedicated to date in the SE4 Section 19 - and it is part of the same Yates lease. Existing Pictured Cliffs acreage dedications ( $\approx$ quarter sections) are shown on Exhibit D.

III. NM Oil Conservation Division records reviewed on January 1, 2005 show the closest existing or planned Pictured Cliffs well is McElvain's Hagood #1 well which is 3,767' northwest at 1050' FNL & 1040' FEL 24-30n-14w. EXHIBIT D shows the proposed well site, the only two existing offset Pictured Cliffs gas dedicated spacing units, and the two Pictured Cliffs gas wells (circled on map) within those dedications.

Registered letters were sent on January 3, 2005 to all of the offset interest owners. Copies of the postal receipts and letters are attached.

IV. A copy of the USGS map is attached (EXHIBIT E). The proposed well site is marked. Pro ration unit (dashed outline) for the Pictured Cliffs gas is 90.8 acres (Lots 3 & 4 and E2SW4) in Section 19, Township 30 North, Range 13 West, San Juan County, NM.

V. The nonstandard location is due to topography. The drilling window is in a steep badland area. The well is staked (see EXHIBIT E) northeast of the badlands and near a road.

VI. No archaeology sites were found.

VII. See item V. above and attached map for a description of the surface conditions.

VIII. Directional drilling is not feasible because it is not cost effective.

IX. I hereby certify notice (see attached EXHIBIT F) has been sent to the following lessees, lessors, operators of existing spacing units, or owners of undrilled leases which adjoin the applicant's spacing unit on one or more of the two sides or the single closest corner to the proposed well and that the information is current and correct.

Robert L. Bayless Producer LLC  
 P. O. Box 168  
 Farmington, NM 87499

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) and nonstandard spacing unit (NSP) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Yates Petroleum Corporation is applying to drill its Viersen Federal 3 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 487' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. The "quarter section" is 90.8 acres rather than the minimum 112 acres. Thus, it is a NSP. It is 1,520' from the closest lease boundary.

Mitchell Brown Properties  
 P. O. Box 5562  
 Midland, TX 79704

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) and nonstandard spacing unit (NSP) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Yates Petroleum Corporation is applying to drill its Viersen Federal 3 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 487' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. The "quarter section" is 90.8 acres rather than the minimum 112 acres. Thus, it is a NSP. It is 1,520' from the closest lease boundary.

Well Name: Viersen Federal 3      Total Depth: 1,645'  
Proposed NSL Producing Zones: Fulcher Kutz Pictured Cliffs  
NSL Acreage Dedication: 90.8 acres (Lots 3 & 4 and E2SW4 Sec. 19)  
Location: 1825' FSL & 1520' FWL Sec. 19, T. 30 N., R. 13 W.,  
 San Juan County, NM on Federal lease NMSF-078977  
Approximate Location: ≈4 air miles northwest of Farmington, NM  
Applicant Name: Yates Petroleum Corporation (505) 748-1471  
Applicant's Address: 105 South 4th St., Artesia, NM 88210

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New Mexico address is 1220 South St. Francis Dr. Santa Fe, NM 87505. My phone number is (505) 476-3440.

George Hall & Elliott Hall Co. UT LP  
 P. O. Box 1231  
 Ogden, UT 84402

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) and nonstandard spacing unit (NSP) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Yates Petroleum Corporation is applying to drill its Viersen Federal 3 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 487' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. The "quarter section" is 90.8 acres rather than the minimum 112 acres. Thus, it is a NSP. It is 1,520' from the closest lease boundary.

Well Name: Viersen Federal 3      Total Depth: 1,645'  
Proposed NSL Producing Zones: Fulcher Kutz Pictured Cliffs  
NSL Acreage Dedication: 90.8 acres (Lots 3 & 4 and E2SW4 Sec. 19)  
Location: 1825' FSL & 1520' FWL Sec. 19, T. 30 N., R. 13 W.,  
 San Juan County, NM on Federal lease NMSF-078977  
Approximate Location: ≈4 air miles northwest of Farmington, NM  
Applicant Name: Yates Petroleum Corporation (505) 748-1471  
Applicant's Address: 105 South 4th St., Artesia, NM 88210

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New Mexico address is 1220 South St. Francis Dr. Santa Fe, NM 87505. My phone number is (505) 476-3440.

Questar Expl. & Prod. Co.  
 1050 17th St., #500  
 Denver, CO 80265

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) and nonstandard spacing unit (NSP) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Yates Petroleum Corporation is applying to drill its Viersen Federal 3 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 487' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. The "quarter section" is 90.8 acres rather than the minimum 112 acres. Thus, it is a NSP. It is 1,520' from the closest lease boundary.

Well Name: Viersen Federal 3      Total Depth: 1,645'  
Proposed NSL Producing Zones: Fulcher Kutz Pictured Cliffs  
NSL Acreage Dedication: 90.8 acres (Lots 3 & 4 and E2SW4 Sec. 19)  
Location: 1825' FSL & 1520' FWL Sec. 19, T. 30 N., R. 13 W.,  
 San Juan County, NM on Federal lease NMSF-078977  
Approximate Location: ≈4 air miles northwest of Farmington, NM  
Applicant Name: Yates Petroleum Corporation (505) 748-1471  
Applicant's Address: 105 South 4th St., Artesia, NM 88210

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New address is 1220 South St. Francis Dr. Santa Fe, NM 87505. Phone number is (505) 476-3440.
