Houston, TX 77252-2197

Attention: Deborah Marberry

*SAN JUAN 32 7 UNIT #024
API No. 30-045-22165
Unit L, Section 21, Township 32N, Range 07W, NMPM,
SAN JUAN County, New Mexico
BLANCO-MESAVERDE (PRORATED GAS) (72319), and
Undesignated LOS PINOS;FRT SND PC,SOUTH (G) (80690) Pools*

Dear Ms. Marberry:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division 303C.(1)(f), the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

Assignment of production from the well shall be done using the subtraction method. The Fruitland Sand Pictured Cliffs shall be assigned the balance of the production after subtracting projected production for the Mesaverde.

REMARKS: The operator shall notify the Aztec District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303C(2), the commingling authority granted herein may be rescinded by the ~~Division Director if conservation is not being best served by such commingling.~~

Approved at Santa Fe, New Mexico on March 18, 2005.
