Ms. Lori Wrotenberry New Mexico Oil Conservation Division 2040 South Pacheco Street Santa Fe, New Mexico 87505

RE:

Administrative Approval for Unorthodox Location

Greystone Energy, Inc.

(Langendorf # 2 Re-Entry) - to be re-named the Mc Lintock #1 Fruitland Coal

1110' FSL, 875' FEL, Sec.34, T31N, R13W, N.M.P.M.

San Juan County, New Mexico

Dear Ms. Wrotenberry:

Greystone Energy, Inc. requests administrative approval of an unorthodox location pursuant to Rule 104. F (2). Standard spacing for the Basin Fruitland Coal states that the first well in a section must be located in either the NE/4 or the SW/4. The well bore, which Greystone plans on utilizing, is in the SE/4. (See attached C-102 Plat) Greystone Energy would like to <u>re-enter this plugged well</u> to test the Basin Fruitland Coal in this area. There is no offset Fruitland Coal production in this area.

To comply with the New Mexcio Oil Conservation Rules, Greystone Energy, Inc. is submitting the following data for support:

- 1. Form C-102 showing plugged well position
- 2. Location Plat showing Offset lease hold and well spot
- 3. Offset operator / lease holder notification list

In accordance to New Mexico Oil Conservation Division Rule 104. F (3), all offset operators / leaseholders have been notified of this application by certified mail. As an offset operator / leaseholder, if you have an objection to this application you must file your objection in writing with the Division within 20 days from the date that the Division receives this application.

If additional information is needed, please contact me at (303) 925-0542 Ext. 223.

Sincerely,

Brian D. Voigt Vice President

CC: NMOCD-Aztec, BLM - Farmington, Offset Operators / Lease Holders
