The oil and gas production from each well shall be continuously measured with allocation meters before commingling with production from other wells. The allocation meters shall be calibrated quarterly.

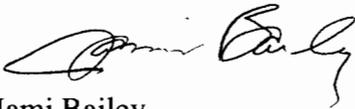

This installation shall be installed and operated in accordance with the applicable Division Rules. It is the responsibility of the producer to notify the transporter of this commingling authority.

The proposed (CTB) is in the best interests of conservation and waste from the affected wells. Correlative rights will not be impaired, and will not result in reduced royalty or improper measurement of production

The operator shall notify the Artesia District office of the Division prior to implementation of the commingling operations.

This approval is subject to like approval from the State Land Office before commencing commingling operations.

Sincerely

Jami Bailey
Division Director
