13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

By Order No. PC-1271 issued on 4/2/2014, Enervest Operating, LLC ("Enervest") was authorized to surface commingle Blanco-Mesaverde and Basin-Dakota Gas Pool production from its Jicarilla Contract 155 No. 19E. Production from each of the commingled zones was to be allocated on the basis of well tests to be conducted on a monthly basis on each zone. Enervest respectfully requests to amend PC-1271 to authorize a fixed production allocation in lieu of conducting monthly well tests.

In support of this request, Enervest states that: 1) The E/2 of Section 29 is dedicated to the Basin-Dakota Gas Pool, and the SE/4 of Section 29 is dedicated to the Blanco-Mesaverde Gas Pool. 2) Ownership of the two zones is common. (See attached landman statement)

Based upon a Mesaverde production test conducted on the subject well April 5-17, 2014 which resulted in an average producing rate of 13 BOPD, 204 MCFGPD and 20 BWPD, and based upon a Dakota production test conducted on the subject well May 1-13, 2014 which resulted in an average producing rate of 1 BOPD, 173 MCFGPD and 2 BWPD, Enervest proposes to allocate production as follows:

Blanco-Mesaverde Gas Pool: Oil: 93% Gas: 54% Water: 91%
Basin-Dakota Gas Pool: Oil: 7% Gas: 46% Water: 9%

The United States Bureau of Land Management has been sent a copy of this application (see attached certified mail receipt). Approval of the requested amendment will not result in waste and will not violate correlative rights.
