Hornsby 35 Federal Com No. 11H
Surface Location (SL): 210' FSL & 750' FEL (Lot 1)

Both in Section 35, Township 26 South, Range 27 East, NMPM,
Bottomhole Location (BHL): 330' FNL & 750' FEL (Unit A)
Section 26, Township 26 South, Range 27 East, NMPM,
Eddy County, New Mexico

Dear Ms. Bailey:

Pursuant to Division Rule 19.15.15.11, Cimarex Energy Company ("Cimarex") respectfully requests administrative approval for a 224.18-Acre Non-Standard Spacing Unit/Horizontal Project Area comprising the E/2 E/2 of Section 26 and Unit A and Lot 1 (E/2 NE/4 equivalent) of Irregular Section 35, both in Township 26 South, Range 27 East, NMPM, Eddy County, New Mexico.

The proposed Hornsby 35 Federal Com No. 11H, which will be drilled as a horizontal well at a standard well location to test the Hay Hollow-Bone Spring Pool (30215), will be dedicated to the proposed non-standard spacing unit.

The Hay Hollow-Bone Spring Pool is currently governed by Division Rule 19.19.15.9 which requires standard 40-acre oil spacing and proration units with wells to be located no closer than 330 feet to the outer boundary of the spacing unit.

The attached plat shows that Section 35 is an irregular section whose southern boundary is the New Mexico/Texas State Line. This section is comprised of four standard 40-acre units (Units A, B, C & D) and four non-standard lots (Lots 1-4) that each comprise approximately 24 acres.

The concurrent development of Sections 26 and 35 in the Bone Spring formation in the manner proposed by Cimarex represents a reasonable and effective method by

which portions of Irregular Section 35 can be incorporated into horizontal Bone Spring project areas.

In addition to the currently proposed non-standard spacing unit, Cimarex, as operator of the Bone Spring formation in Sections 26 & 35, has or will propose three additional non-standard Bone Spring spacing units comprising: i) the W/2 W/2 of Section 26 and Unit D and Lot 4 (W/2 NW/4 equivalent) of Irregular Section 35; ii) E/2 W/2 of Section 26 and Unit C and Lot 3 (E/2 NW/4 equivalent) of Irregular Section 35 and; iii) W/2 E/2 of Section 26 and Unit B and Lot 2 (W/2 NE/4 equivalent) of Irregular Section 35.

Affected Offset Acreage-Non-Standard Spacing Unit: Division Rule 19.15.4.12(A)(3) requires that notice for non-standard proration units be provided to "owners of interest in the mineral estate to be excluded from the proration unit in the quarter-quarter section for 40-acre pools or formations, the one-half quarter section for 80-acre pools or formations, the quarter section for 160-acre pools or formations, the half section for 320-acre pools or formations or section for 640-acre pools or formations in which the non-standard unit is located". As shown on the attached plat, and as previously stated in this application, all acreage in Irregular Section 35 will ultimately be included in one of four horizontal Bone Spring Project Areas operated by Cimarex. Since no acreage will be excluded from participating in Bone Spring development in Sections 26 and Irregular Section 35, no interest owner is affected by the proposed non-standard spacing unit, and consequently, notice of this application is not required, and has not been provided to any party.

Please note that that the working interest ownership within all of Section 26 and all of Irregular Section 35 is common.

Attached is a Form C-102 showing the proposed well and proposed non-standard spacing unit. Please note that there are currently no other Bone Spring producing wells within the proposed non-standard spacing unit. Also attached is a map that shows other existing or proposed Bone Spring Horizontal Project Areas that either directly offset the proposed non-standard spacing unit, or are located within Sections 26 and Irregular Section 35.

In summary, approval of the application will provide Cimarex the opportunity to recover additional oil and gas reserves from the Hay Hollow-Bone Spring Pool underlying the E/2 E/2 of Section 26 and Unit A and Lot 1 (E/2 NE/4 equivalent) of Irregular Section 35 that may otherwise not be recovered, thereby preventing waste, and will not violate correlative rights.

If you should have any questions, please call me at (505) 690-9453.
