RE: Administrative Order SWD-1348; Extension of Deadline

NE Salado Draw Deep Federal Well No. 1 (API 30-025-28967)

1980 FNL, 660 FWL; Unit E, Sec 6, T26S, R34E, NMPM, Lea County, New Mexico

Order Date: August 9, 2012

Injection into the Bell Canyon and Cherry Canyon formations; approved interval: 6018 feet to 6640 feet

Ms. Porter:

Reference is made to your request on behalf of Devon Energy Production Company, LP for an additional two (2) month extension of the August 9, 2014 deadline to commence injection into the above named well for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection is hereby extended until October 9, 2014.

Sincerely,

A handwritten signature in black ink, appearing to read "Jami Bailey", is written over a horizontal line.

JAMI BAILEY
Director
