Re: ACO-284 BP America Production Company Below-grade Tank Replacements

Dear Mr. Herrmann:

Please refer to the below-grade tank report BP submitted on January 30, 2015 pursuant to Agreed Compliance Order 284. Please be advised that several of the sites shown in the report as being closed in the second half of 2014 were not listed on the original Appendix A document included with the signed ACO-284 agreement.

BP has discovered that these sites, and a few others in the original document used to generate Appendix A, did not show up when transferred to the format used for the Appendix A to the ACO-284 that was signed by the parties. The sites that need to be added to Appendix A of ACO-284 are:

Attached is a revised Appendix A that lists all BGT's that will be brought into compliance through the end of the ACO in 2017, which includes the sites inadvertently left off the original list. Please replace the original list with the revised Appendix A included with this letter.

Should you have any questions, please feel free to contact me.

Sincerely,

BP AMERICA PRODUCTION COMPANY

By: James Walker
Title: Deputy Onshore Site Manager, San Juan
