Subject: Re: Smith Brininstool McCloy and Mills Revised Schematics

I will review the designs within the next few days.

The Mills Ranch SWD #1 - sec06-T23S-R31E and Mills North SWD #1 -sec35-T21S-R32E are on Potash. I will be getting our Potash geologist to review the surface and intermediate casing setting depths

I do not see a casing design for the Mills North SWD #1 -sec35-T21S-R32E; will it be the same design for the The Mills Ranch SWD #1 - sec06-T23S-R31E?

Also what is the Section Township and Range (location) of the Smith Ranch 62?

What will be the final designs submitted to NMOCD?

Paul and Ed,

Please find attached the revisions made, (per your worksheets), for the Mills Ranch, Smith Ranch, McCloy and Brininstool. I will be traveling next week to Artesia for meetings Tues – Thursday and would be happy to deliver hard copies of these schematics to your office if you would like.

Please let me know if there is anything else you need for these or other wells at this time.

Thank you!

Katy Welch

Subject: Smith Ranch 62-180

Attached is the Smith Ranch 62-180 WBD with the BLM worksheet in one PDF. Also, the Mills Ranch has been reattached. The 7" L-80 that has originally on the schematic was changed to a 7" P-110 for consistency between designs.
