Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Condor 32 State No. 706H Well in the W/2 E/2 of Section 32, Township 25 South, Range 34 East, N.M.P.M., Lea County, New Mexico.

Dear Mr. Catanach:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Condor 32 State No. 706H Well** (API No. Pending) to be completed within the WC-025 G-09 S253336D; Upper Wolfcamp Pool (98094) underlying Section 32, Township 25 South, Range 34 East, N.M.P.M., Lea County, New Mexico. This well will be drilled from a surface location 642 feet from the North line and 1715 feet from the East line (Unit B) of Section 32. The upper most perforation will be located 330 feet from North line and 1606 feet from the East line (Unit B) and the lower most perforation will be 330 feet from the South line and 1606 feet from the East line (Unit O) of Section 32. Since this acreage is governed by the Division's statewide rules which provides for wells to be located no closer than 330 feet to the outer boundary of the spacing unit, the completed interval for this well will be unorthodox because it is closer than 330 feet to the eastern, northeastern, and southeastern boundaries of the project area.

EOG is the 100 percent working interest owner in the E/2 E/2 of 32. The E/2 E/2 spacing unit will be developed by the Condor 32 State No. 708H well. EOG is also the 100 percent working interest owner in the SE/4 of Section 29, the spacing unit to the Northeast, and the 100 percent working interest owner in the NE/4 of Section 5, the spacing unit to the Southeast. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

HOLLAND & HART LLP

Exhibit A is a draft Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Condor 32 State No. 706H Well** encroaches on the spacing and proration units to the East, Northeast, and Southeast.

Exhibit B is a land plat for Section 32 and the surrounding sections that shows the proposed **Condor 32 State No. 706H Well** in relation to adjoining units and existing wells.

Exhibit C is an affidavit from the landman verifying that ownership in the E/2 E/2 of 32, the S/2 of Section 29, and the NE/4 of Section 5 is owned 100 percent by EOG.

As described above, EOG is the 100 percent working interest owner in each of those spacing units. Accordingly, there are no affected parties. A copy of this application has been provided to the State Land Office.

Your attention to this matter is appreciated.

Sincerely,

Jordan L. Kessler
