Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Gem 36 State Com No. 6H Well in the E/2 W/2 of Section 36, Township 25 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

Dear Ms. Riley:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Gem 36 State Com No. 6H Well** (API No. 30-025-44264) to be completed within the Jennings; Upper Bone Spring Shale Pool (97838) underlying Section 36, Township 25 South, Range 32 East, N.M.P.M., Lea County, New Mexico. This well will be drilled from a surface location 220 feet from the South line and 2276 feet from the West line (Unit N). The upper most perforation will be located 330 feet from South line and 2355 feet from the West line (Unit N) and the lower most perforation will be 330 feet from the North line and 2355 feet from the West line (Unit C) of Section 36. Since this acreage is governed by the Division's statewide rules which provides for wells to be located no closer than 330 feet to the outer boundary of the spacing unit, the completed interval for this well will be unorthodox because it is closer than 330 feet to the eastern, southeastern, and northeastern boundaries of the project area.

Ownership in the Wolfcamp is identical between the proposed spacing unit and the spacing unit in the W/2 E/2 of Section 36. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Holland & Hart^{LLP}

Phone [505] 988-4421 Fax [505] 983-6043 www.hollandhart.com

Aspen Boulder Carson City Colorado Springs Denver Denver Tech Center Billings Boise Cheyenne Jackson Hole Las Vegas Reno Salt Lake City Santa Fe Washington, D.C. ☏

Exhibit A is a draft Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Gem 36 State Com No. 6H Well** encroaches on the spacing and proration units to the East, Northeast, and Southeast.

Exhibit B is a land plat for Section 36 and the surrounding sections that shows the proposed **Gem 36 State Com No. 6H Well** in relation to adjoining units and existing wells.

Exhibit C is a list of the parties affected by the encroachment to the Southeast. As described above, EOG is the operator in the spacing proration unit comprised of the W/2 E/2 of Section 36 and ownership is identical to the proposed spacing unit. Accordingly, there are no affected parties in the spacing units to the East of the proposed well. EOG is also the operator of the spacing and proration unit to the Southeast. Accordingly, the only affected parties are in the spacing unit to the Northeast. Each of the parties listed on Exhibit C have been provided notice of this application by certified mail. A copy of this application has been provided to the State Land Office.

Exhibit D is an affidavit from the landman verifying that ownership in the W/2 E/2 of Section 36 and the subject spacing unit is identical.

Your attention to this matter is appreciated.

Sincerely,

Jordan L. Kessler

Certification of Ownership

I have reviewed the ownership of the oil and gas leasehold in Section 36, T25S-R32E, Lea County, New Mexico, for purposes of the Application for Nonstandard Location for the wells identified below. The E/2W/2 and the W/2E/2 of Section 36-T25S-R32E are covered by an operating agreement; accordingly, owners and percent ownership in the proposed spacing units are identical to the adjacent spacing units in Section 36. As of this date below, the ownership in the east and west offset spacing unit/project area to each of the wells is identical ownership as defined in 19.15.12.7 B. NMAC:

	Well Name	Surface Location	API	Pool Code/Name	Status
1	Gem 36 State Com. #5H	N-36-25S-32E	30-025-44263	Anticipate: 97838 / Jennings, Upper Bone Spring Shale	TBD, spud 1/2018

Ladies and Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the New Mexico Oil Conservation Division on this date. Any objection to this application must be filed in writing within twenty days from this date with the applicant and the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division.

If you have any questions about this application, please contact the following:
