Pool changes are complete for the following wells in the subject lease:

- #502H eff 7-23-15
- #503H eff 4-1-17
- #504H eff 3-20-17
- #505H eff 4-14-17

From this date forward all wells in the Bone Spring formation in Sections 3 and 10, T24S, R33E, will be assigned to pool 59900. The C102s which you submitted to accommodate this change have been sent to be scanned into the well files.

C-115's for these wells will need to be amended to reflect pool 59900. When amendments are complete, please let me know so I can update EPermitting accordingly.
