13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

OXY USA INC requests approval of a surface pool commingle at the Mesa Verde Unit Battery. Wells in Mesa Verde Bone Spring Unit (NMNM137096X) and Mesa Verde Wolfcamp Unit (NMNM137099X) will feed the battery. The oil production will be measured through eight LACT meters, which will serve as the Facility Measurement Points (FMPs). Gas production will be separated and measured through an OXY check meter, which will serve as the FMP. Production will be allocated back to each well based on well test. All water will be sent to the Sand Dunes SWD Integration System.

The working interest, royalty interest and overriding royalty interest owners are identical for the Bone Spring and Wolfcamp Units, so notice was not required.

OXY USA INC requests the option to add wells within the Unit boundary outlined in Order No. R-14494 and R-14500.

Applicant shall submit required C-103 Sundry notices and C-1 to the Hobbs District Office.
