Adobe Scott Aye Well No. 1Y  
API No. 30-025-29457

Pools:	Tres Papalotes; Atoka (Gas)	Gas (96586)
	Morton; Morrow (Gas)	Gas (81460)

Spacing Units: E/2 Sec 11, T15S, R34E, NMPM, Lea County, New Mexico

Reference is made to your recent application for an exception to Division Rule 19.15.12.9A. NMAC of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appears that the subject well qualifies for approval for such exception pursuant to the provisions of Division Rule 19.15.12.11A. NMAC, and since reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division Rule 19.15.12.11A (6) NMAC, the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

Assignment of allowable and allocation of production from the well shall be as follows:

Tres Papalotes; Atoka (Gas)	Pct. Oil: 0	Pct. Gas: 2
Morton; Morrow (Gas)	Pct. Oil: 100	Pct. Gas: 98

---

It is also understood that notice of this application, pursuant to Division Rule 19.15.4.12 A (6), is not required since the interest ownership between the zones to be commingled is identical throughout.

REMARKS: The operator shall notify the Division's District I office upon implementation of commingling operations.

Pursuant to Division Rule 19.15.12.11B. NMAC, the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Director
