OFF-LEASE MEASUREMENT

Administrative Order OLM-152

OXY USA INC.
Attention: Ms. Sandra Musallam

OXY USA Inc. (OGRID 16696) is hereby authorized to transport and measure oil and gas production off-lease, from the following wells which produce from the Bone Spring formation, the Pierce Crossing; Bone Spring Pool (pool code 50371) in Eddy County, New Mexico. The wells are on different federal communization agreements; however, the ownership is identical, and the leases are contiguous:

Salt Ridge CC 20 17 Federal Com Well No. 21H (API No. 30-015-44945), Unit E, Section 17, Township 24 South, Range 29 East.

Salt Ridge CC 20 17 Federal Com Well No. 23H (API No. 30-015-44947), Unit F, Section 17, Township 24 South, Range 29 East.

The oil and gas production from these wells shall be measured and sold at the Salt Ridge Central Tank Battery located in Unit D/E of Section 17, Township 24 South, Range 29 East, NMPM, Eddy County, New Mexico.

All meters for the above-referenced wells shall be physically separated from facilities for other wells, so that production from the above-referenced wells will not be commingled prior to measurement with production from any other well.

This permit does not authorize the surface commingling of this oil and gas production with oil production from other pools or leases.

It is also understood that you have given due notice of this application to all working interest owners who are "affected persons," as defined in Division Rule 19.15.23.9 (A) NMAC. However, OXY is the sole working interest owner; therefore, no notification is required.

Applicant may add future wells in the lease and pool approved by this administrative order with a Sundry Notice C-103 to the Engineering Bureau in Santa Fe.
