ADMINISTRATIVE POOL/LEASE COMMINGLING ORDER

July 24, 2018

Surface Commingling Order PLC-512

BOPCO, L.P.
Attention: Ms. Tracie Cherry

Pursuant to your application received on July 3, 2018, BOPCO, L.P. (OGRID 260737) is hereby authorized to surface commingle oil and gas production and off-lease measure from the following pools:

NASH DRAW; DELAWARE/BS (AVALON SAND)	(47545)
PIERCE CROSSING; BONE SPRING, EAST	(96473)

and from wells, and their associated leases and pools along with Range of decline identified in Attachment No. A and made part of this order. These wells are located on federal communitization agreements and leases in Township 23 South, Range 30 East, Township 24 South, Range 29 East, and Township 24 South, Range 30 East, NMPM, Eddy County, New Mexico.

Production from the subject wells shall be determined as follows:

It is understood that the test separator and meters are designed to accurately measure production from the wells with the highest production rate. It is also assumed that all of the oil and gas production from the wells in this application will display a hyperbolic decline, and will fit the decline parameters described in Hearing Order R-14299. Wells that are in prior to Range 1 of decline shall be tested daily. Wells that are in Range 1 of decline shall be measured with a combination of metering and well testing, and shall be tested at least three times a month. Wells that are in Range 2 of decline shall be measured with a combination of metering and well testing, and shall be tested at least twice a month. Wells in Range 3 of decline shall be measured with a combination of metering and well testing, and shall be tested at least once a month.

Further, all wells subject to this application, with the exception of the Poker Lake Unit Well No. 359H shall be measured with a combination of metering and well testing. The Poker Lake Unit Well No. 359H shall be separately metered before commingling.

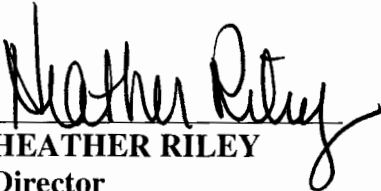

The oil and gas production from these wells listed as part of this application shall be measured and sold from the Poker Lake Unit Well No. 158 Central Tank Battery (CTB), located in Unit A, Section 7, Township 24 South, Range 30 East, NMPM, Eddy County, New Mexico.

BOPCO, L.P. shall provide a Sundry Notice to the Engineering Bureau in Santa Fe when a dedicated separator is removed.

Subsequently drilled wells that produce from the subject pool within the project areas approved by this order may be added to this commingling authority by submittal of a Sundry Notice to the Engineering Bureau in Santa Fe.

This approval is subject to like approval from Bureau of Land Management before commencing commingling operations.

The operator shall notify the Artesia District office of the Division prior to implementation of the commingling operations.

HEATHER RILEY
Director
