Re: Application for surface Commingle of Production from NM State Lease
LG-5246, Section 21, T-10S-R27E, Chaves County, NM

Dear Mr. McMillian:

Quatro Osos E&P, LLC, OGRID # 372241 respectfully requests administrative approval to surface commingle existing and future oil, gas* and water production from the Diablo San Andres Pool (17640) through a Central Tank Battery or two Central Tank Batteries located on existing well pads within the State Lease LG-5246. Quatro Osos E&P, LLC is the operator of seventeen (17) wells producing from the Diablo; San Andres formation in Section 21 of T10S, R27E, Chaves County.

The working interest owners (5) are the same for each of the 17 wells. The four (4) ORRI owners share the same and equal percentage ownership in the Paula K State Wells and the Stone Brothers State wells, but have a reduced, but equal to each other ORRI interest in the Frank P State #1-#8 wells. Therefore, we also request your consideration of allowing us to add future wells, leases and pools to the proposed commingling operations by allowing us to notice only those interest owners in the wells, leases or pools to be added, in accordance with Division Rule 19.15.12.10 C (4) (G) NMAC.

As is shown in Exhibit A, Quatro operates wells on both sides of Ponderosa Road (Chaves County Road). There are seven (7) wells located on the east side of Ponderosa Road and ten (10) wells located on the west side of Ponderosa Road. While we have previously looked to create two (2) CTB's, one on either side of Ponderosa Road, with all operating options having been explored and discussed within our company, we have determined that our preference for the most effective and most easily maintained future CTB is to have only one and to place it on the well pad of the Frank P. State #5 well in the far SW corner of the Lease.

Therefore we are pleased to submit the following information to provide the data that

*Currently the wells produce no gas, but gas production may be possible in future if new wells are drilled.

will hopefully be found to be pertinent and necessary to enable you to make your recommendation on our application:

- A. Administrative Application Checklist
- B. C-107-B Application for Surface Commingling (Diverse Ownership)
- C. Exhibit A listing all wells with API #'s, legal descriptions and GPS coordinates
- D. Exhibit B listing all interest owners and their perspective interests
- E. Copy of Interest Owner notice letter
- F. Certified Mail Green Card verification
- G. Acreage dedication plats issued prior to drilling
- H. Google Map of State Lease LG-5246 with wells and existing batteries identified
- I. Existing well pad and battery diagrams
- J. Proposed CTB map and diagram with equipment placement
- K. Production history for each well from 2016 to present

Our primary issue is deteriorating surface equipment due to H2S contained within the production. We therefore are attempting to be proactive in having purchased several used tanks from other operators and would like to install some to alleviate issues. In addition to our tank replacement issue we are also concerned with our road crossing flowlines. The wells were drilled prior to Ponderosa Road having been chip-sealed in the late 1990's or early 2000's. Therefore the use of steel flowlines under the then dirt County Road was common place. There have been several of those that have been abandoned for various reasons, not the least of which is leakage due to their installation having been done without proper protective coating. We are concerned with that possibility happening to our flowlines that cross under the roadbed. We are, therefore requesting, via an application for surface commingling, to be allowed to move, re-locate or replace flowlines on either side of the road to be directed to two tankage areas, one on either side of the road (see attached map). This will eliminate at least two road crossings, 12 tanks/gunbarrels and 4 out of service heater treaters.

We hope that your review of our application and submitted documents satisfies all of the requirements and meets with your approval. Please direct any questions or concerns to myself at the contacts shown in the header.

Regards,

Rory McMinn, Managing Member

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Quatro Osos E&P, LLC

OPERATOR ADDRESS: P.O. Box 1213; Roswell, NM 88202-1213

APPLICATION TYPE:

☐ Pool Commingling ☒ Lease Commingling ☐ Pool and Lease Commingling ☐ Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE: ☐ Fee ☒ State ☐ Federal

Is this an Amendment to existing Order? ☐ Yes ☒ No If "Yes", please include the appropriate Order No. _____
Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling
☒ Yes ☐ No

(A) POOL COMMINGLING
Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes

- (2) Are any wells producing at top allowables? ☐ Yes ☐ No
(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No.
(4) Measurement type: ☐ Metering ☐ Other (Specify)
(5) Will commingling decrease the value of production? ☐ Yes ☐ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING
Please attach sheets with the following information

- (1) Pool Name and Code. Diablo: San Andres POOL CODE: 17640
(2) Is all production from same source of supply? ☒ Yes ☐ No
(3) Has all interest owners been notified by certified mail of the proposed commingling? ☒ Yes ☐ No
(4) Measurement type: ☐ Metering ☒ Other (Specify) Flowline headers allow well isolation to 210 barrel test tank with production then determined by subtraction method.

(C) POOL and LEASE COMMINGLING
Please attach sheets with the following information

- (1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT
Please attached sheets with the following information

- (1) Is all production from same source of supply? ☐ Yes ☐ No
(2) Include proof of notice to all interest owners.

(E) ADDITIONAL INFORMATION (for all application types)
Please attach sheets with the following information

- (1) A schematic diagram of facility, including legal location.
(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.
(3) Lease Names, Lease and Well Numbers, and API Numbers.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

Re: NM Oil Conservation Division application for surface commingling of production
Diablo San Andres Field-Operator is Quatro Osos E&P, LLC, OGRID #37224. State Lease LG-5246.
Along with the Commingling application, we are hereby requesting either a reduction in the
Overriding Royalty Interest held by Myco Industries, Inc., Abo Petroleum Corporation, EOG Y

Resources, Inc. and Oxy Y-1 or the complete or partial sale of the same Overriding Royalty Interest to Quatro Osos E&P, LLC.

Dear Mineral, Royalty, or Working Interest Owner:

Pursuant to the requirement by the Oil Conservation Division to notify you of the application to commingle production please accept this letter as your notice of our intent.

You will find attached a copy of a cover letter sent to the Commissioner of Public Lands providing a verbal description of why we are requesting the application be approved. The State Land Office does not require an application and allows surface commingling when the wells produce from the same pool and are within the same lease. Therefore, they verbally stated the same today.

You will also find attached an Exhibit A which provides the listing of the wells in question along with their legal description, API number and position on either the West side of Ponderosa Road or on the East side of Ponderosa Road. Additionally, both a map showing the outline of the State Lease LG-5246 and an Exhibit B which lists the revenue ownership of each well included in the application.

Our purpose, as stated in the enclosed letter to the Commissioner, is to perfect the operations, eliminate bottlenecks, possibly prevent potential environmental exposure and generally cleanup the operating area. We will production test the well(s) as needed to verify that the accounting allocations to your accounts are correct.

Our request for you to reduce your royalty is a serious request. However, in lieu of reducing your royalty, we would like to buy your royalty position in part or in whole. While \$60 WTI is great, our reductions due to both gravity and the sour nature of the crude place our posting almost \$10 below the WTI posted price. Any improvement in Net Revenue justifies our actions such as the application upon which this letter is predicated.

Yours Sincerely,

A handwritten signature in black ink, appearing to be 'Rory McMinn', written over a horizontal line.

Supersedes 6-128
Effective 1-1-88

All distances must be from the outer boundaries of the Section

Operator COLLINS OIL AND GAS CORP.		Well Name FRANK P.		Well No. 6
Unit Letter I	Section 21	Range 10-S	Meridian 27-E	County CHAVES
Actual Footage Location of Well: 1650 feet from the SOUTH boundary 990 feet from the EAST boundary				
Ground Level Elev. 3862.5	Producing Formation San-Andres	Diablo-San-Andres		Estimated Acreage 40

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.
