Spud Muffin 31-30 623H, 624H, 735H, 736H, 738H Wells
Spud Muffin 31-30 Com 622H, 734H Wells
Spud Muffin 31-30 Fed Com 621H Well
Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. respectfully requests administrative approval of a non-standard location for each of the Spud Muffin Wells referenced above by decreasing the first and last take points from 330 feet to 100 feet from the horizontal plane outer boundary. The wells are located in the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220). It is Devon's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the first and last take point will increase the wells effective lateral length by 460 feet thereby increasing ultimate recovery of reserves and thereby preventing waste of natural resources.

Sincerely,

A handwritten signature in blue ink, appearing to read "K. Sprague". The signature is fluid and cursive, with a large, sweeping "S" for the last name.
