Subject: RE: Request to Surface Commingle

Darlene:

Your applications for the Simmons Well No.3, Simmons Well No.4, Simmons No. 5, and LV Hammer B Well No. 1 have been suspended.

Your measurement description for all of the applications was not clear.

Based on previous conversations, I believed the wells were being continuously metered. However, later I discovered the wells will be measured with a combination of metering, well testing, and historical production.

You must renotify all affected parties with a better description of measurement method.

Look at Administrative Order PLC-498 to get an idea of how XTO requested metering and well testing..

Thank You

Mike

Subject: [EXT] RE: Request to Surface Commingle

Mike,

Attached are the requested form C-107Bs, along with gas analysis. I was able to obtain the gas analysis for the shut-in wells effective their last month of production.

Please let me know if you need additional information to evaluate our requests to commingle.

Here are the BLM Approved Sundries. The ownership in the A B Geren 6 is different from the L V Hamner 1B so those owners were notified using the sample letter attached to the packet.

Where is the letter for the Hammer stating identical ownership in the mineral estate?

Mike

Subject: [EXT] RE: Request to Surface Commingle

Mike,

I have had the maps updated with the exiting flow lines, and it appears the L V Hamner B 1 and A B Geren 6 were included in the mailings but, not listed on the document showing notification. I have updated each of the files with this information.

If there are no other additions or missing information, I will put the original files in the mail.

Thanks!

Mike,

I noticed when I put the documents in an envelope that the OGRID Number did not save. Please disregard the first submission. These documents are complete.

Thanks!

Subject: Request to Surface Commingle

Mike,

Attached are 4 requests to surface commingle wells that have been shut-in for quite a while. Each packet contains 1) Administrative Application Checklist; 2) Request to Commingle with proposed Commingle Program; 3) C-102 for each affected well; 4) Six months production for each affected well; 5) List of Royalty Owners, Overriding Royalty Owners, and Revenue Owners with date of notice mailing, along with a sample of the letter sent to each owner.

I have placed the original documents in the mail. Please let me know if you require additional information to review/approve these requests.

Thanks!
