Re: Application of Chevron U.S.A. Inc., for administrative approval of an unorthodox well location for its CB SE 5 32 Fed Com 003 No. 3H Well in the W/2 of Section 32, Township 23 South, Range 29 East, and the W/2 of Section 5, Township 24 South, Range 29 East, N.M.P.M., Eddy County, New Mexico.

Dear Ms. Sandoval:

Chevron U.S.A. Inc. ("Chevron") (OGRID No. 6137) seeks administrative approval of an unorthodox well location for its **CB SE 5 32 Fed Com 003 No. 3H Well** (API No. 30-025-pending) to be completed within the Purple Sage Wolfcamp Pool (98220) underlying the W/2 of Section 32, Township 23 South, Range 29 East, and the W/2 of Section 5, Township 24 South, Range 29 East, N.M.P.M., Eddy County, New Mexico. This well will be drilled from a surface location 295 feet from the south line and 1,592 feet from the west line (Unit N) of Section 5 to a bottom hole location 176 feet from the north line and 2,439 feet from the west line (Unit C) of Section 32. The first take point will be located 330 feet from the south line and 2,352 feet from the west line (Unit N) of Section 5 and the last take point will be 1,117 feet from the north line and 2,365 feet from the west line (Unit C) of Section 32.

Pursuant to Division Order R-14262, this acreage is governed by the Special Rules for the Purple Sage-Wolfcamp Gas Pool which provide for wells in the Wolfcamp formation in Eddy County to be located no closer than 330 feet to the outer boundary of the spacing unit. The completed interval for the **CB SE 5 32 Fed Com 003 No. 3H Well** will be unorthodox because it is closer than 330 feet to the eastern boundary of the project area. Approval of the unorthodox completed interval will allow Chevron to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **CB SE 5 32 Fed Com 003 No. 3H Well** encroaches on the drilling and spacing units to the east.

Exhibit B is a land plat that shows the proposed **CB SE 5 32 Fed Com 003 No. 3H Well** in relation to the adjoining spacing units to the east in Sections 5 and 32.

Exhibit C is a list of the parties affected by the encroachment to the east. Ownership is diverse between the subject spacing unit and the tracts to the east. The affected parties in the spacing units in the E/2 of Sections 5 and 32 includes the Bureau of Land Management and the New Mexico State Land Office. A copy of this application with all attachments has been sent by certified mail to each affected party advising them that if they have an objection it must be filed in writing with the Division within 20 days from the date the Division receives the application.

Exhibit D is a statement from a Chevron's petroleum engineer confirming that Chevron's requested unorthodox location is necessary to optimize well spacing, thereby preventing waste.

Your attention to this matter is appreciated.

Sincerely,

Kaitlyn A. Luck

Dear Mr. Lowe:

Chevron U.S.A. Inc. respectfully requests administrative approval of a non-standard location for the well referenced above by decreasing the last take points from 330 feet to 196.74 feet from the east line vertical plane outer boundary. The wells are located in the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220). It is Chevron's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the last take point will increase the wells effective lateral length by 782 feet thereby increasing ultimate recovery of reserves and thereby preventing waste of natural resources.

Chevron requests the following NSL location:

SHL: 295' FSL & 1,592' FWL
BHL: 176' FNL & 2,439' FWL
FTP: 330' FSL & 2,352' FWL

Ms. Kaitlyn A. Luck,

Good morning.

In review of the above Subject well for the NSL request received on June 13, 2019.

There appears to be some discrepancies within the application you have provided. None of your references to your FTP and LTP information are consistent.

Upon review I have found:

Your letter stating

FTP = 330 FSL & 2352 FWL
LTP = 1117 FNL & 2365 FWL

Your C-102 stating

FTP = 330 FSL & 2178 FWL

LTP = 330 FNL & 2178 FWL

Exhibit B stating

FTP = 330 FSL & 2352 FWL

LTP = 330 FNL & 2447 FWL

What are the correct FTP and LTP you wish to use for this Unorthodox Location request? Remember, you are requesting an Exception to the rule. In order to grant an exception, all pertinent information must be concise, correct, and informative within your request.

Your application has not been determined Administratively correct as of this time.

Your application is on hold.
