RE: Administrative Order to Surface Commingle  
Edith Butler B Lease  
Unit Letter I Sec 13 T22S R37E  
Lea County, New Mexico

Dear Mr. McMillan:

Apache would like to request an Administrative Surface Commingling Order to include the following producing pools: Paddock (49210), Blinebry Oil & Gas (Oil – 6660), Tubb Oil & Gas (Oil – 60240) and Brunson; Drinkard-Abo, South (7900). Wells 1, 2, 5 & 6 have DHC Orders, as noted on well list.

Enclosed please find forms C-102 and well test information for all wells on the lease. Schematics included show well #1 has its own gas meter, but all other gas produced will be commingled at the Edith Butler B lease facility and transported through the gas sales line. These wells are all marginal producers and production will be allocated monthly by well tests. Per the attached land letter, interest ownership varies slightly between wells and interest owners have been notified, with one exception. Royalty owner Veslemoy Andresen Roer has an invalid address and all attempts to locate have been unsuccessful. Attached also please find where Apache ran notice in the Hobbs, NM newspaper, as required by rule.

In the event Apache were to add wells and leases to this commingling order, we request to only notify interest owners in the wells and leases to be added, per Division Rule 19.15.12.10C(4)(g) NMAC.

If you need additional information or have any questions, please give me a call at (432) 818-1062 or send an e-mail to [Reesa.Fisher@apachecorp.com](mailto:Reesa.Fisher@apachecorp.com).

Sincerely,

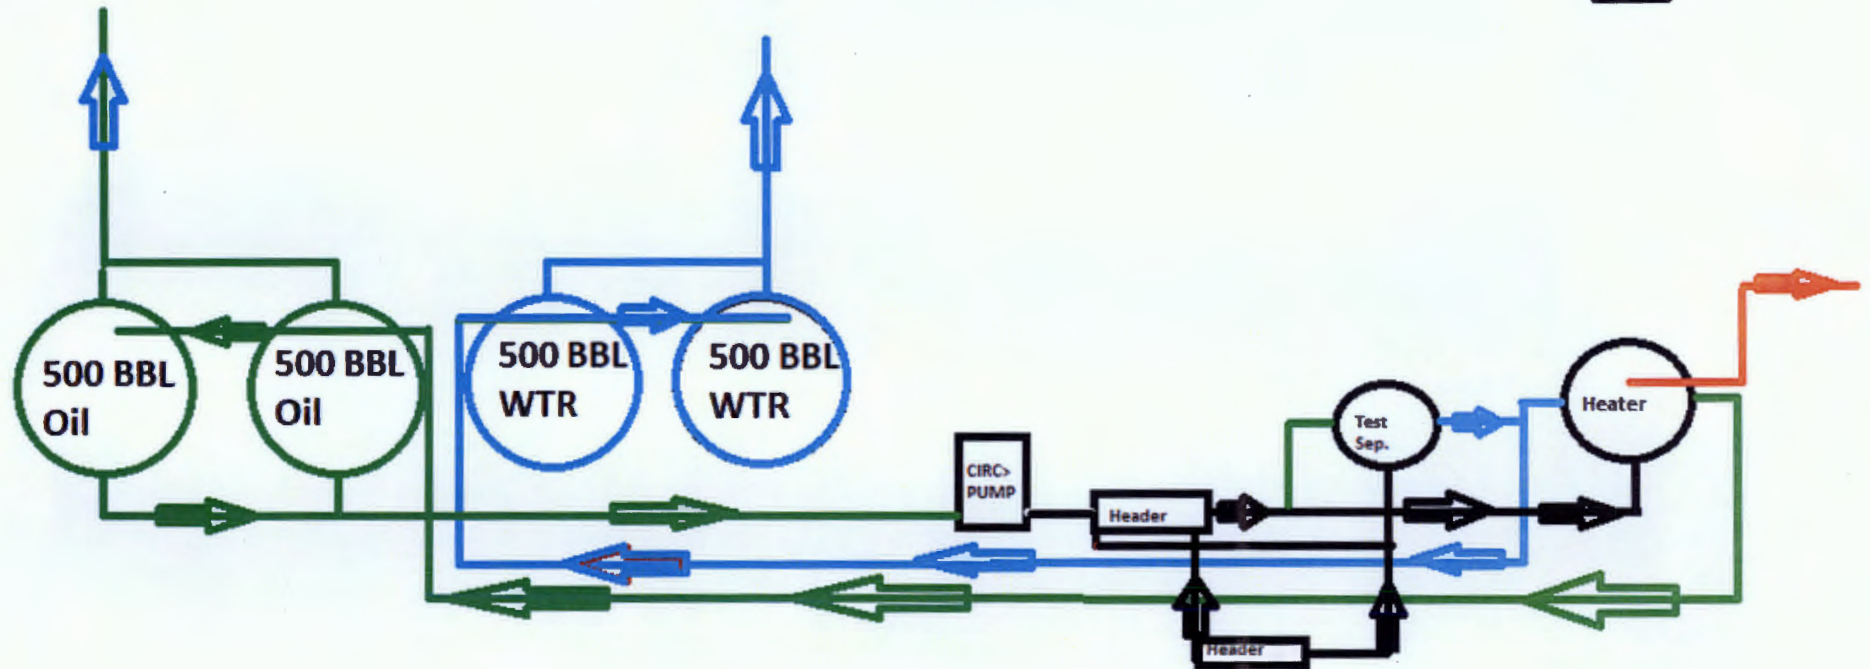

Reesa Fisher  
Sr. Staff Regulatory Analyst

RE: Notice of Intent to Surface Commingle Production from the  
Edith Butler B #001, 002, 004, 005, 006 wells  
Section 13, Township 22 South, Range 37 East  
Lea County, New Mexico

Dear Interest Owners,

Apache Corporation ("Apache") hereby requests your approval to surface commingle production from the following existing wells:

- Edith Butler B #001: API 30-025-10252, a vertical well located in OCD Unit letter I, producing from the Blinebry O&G (Oil), Tubb O&G (Oil), and Brunson; Drkd-Abo, S
- Edith Butler B #002: API 30-025-25074, a vertical well located in OCD Unit letter J, producing from the Blinebry O&G (Oil) and Brunson; Drkd-Abo, S
- Edith Butler B #004: API 30-025-37513, a vertical well located in OCD Unit letter I, producing from the Paddock
- Edith Butler B #005: API 30-025-40011, a vertical well located in OCD Unit letter I, producing from the Blinebry O&G (Oil) and Tubb O&G (Oil)
- Edith Butler B #006: API 30-025-40012, a vertical well located in OCD Unit letter J, producing from the Blinebry O&G (Oil), Tubb O&G (Oil), and Brunson; Drkd-Abo, S

The interest ownership differs slightly between the above listed wells. In order to commingle production at the surface, production from each of the wells must be allocated by well test to account for the difference in ownership.

Enclosed for your review is a copy of Apache's application requesting approval from the Bureau of Land Management and the New Mexico Oil Conservation Division to surface commingle the referenced wells. To evidence your approval for the surface commingling of production, please execute the signature block below and return one copy of this letter to my attention by e-mail or using the enclosed prepaid return envelope. Should you have any questions, please don't hesitate to contact me.

Sincerely,

**APACHE CORPORATION**

Jan Baker, JD, CPL

Landman

Jan.baker@apachecorp.com

432-818-1654 (office)

The undersigned hereby approves to surface commingle production, as proposed in this letter, subject to further approval by the New Mexico Oil Conservation Division.
