13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or re-completion.

Mack Energy is requesting approval to add an additional sales meter to our CTB-887 order, currently selling gas at a sales point in Sec. 4 T16S R29E. All requirements and testing procedures will remain the same. This meter will enable gas sales to be sold at either/or both locations. This should prevent any gas venting should either purchaser have pipeline issues, it also insures capacity for future development. Additional sales meter will be located in the SESW Sec. 22 T15S R29E. Below is a list of all associated CTB's.
