Mike,

Thanks for your call this morning. We reviewed the application and public notice affidavit for Vista's proposed Douglas Federal SWD No. 1 (as well as the 7 other Vista SWD applications that were submitted on 8/12) and confirmed that the required specific location information (i.e. footage calls) is present and accurate in both the application and the public notice.

We have attached the public notice affidavits for each of Vista's 8 SWD applications, including the Douglas Federal SWD No. 1, and have outlined the footage calls for clarity.

Please let us know if this satisfies OCD's requirement for providing specific location information or if additional information is necessary.

I've copied Dan Arthur on this email. Please contact either of us you have further questions or comments.

Regards,
Kris

Dan:

Your application for the Vista Disposal solutions, LLC Douglas Federal SWD Well No. 1 is suspended.

Your affidavit of publication must list the exact location of the proposed SWD. ¼ ¼ location is not acceptable, because it is impossible to determine if the proposed SWD is at an orthodox location (for this proposed well it is unorthodox from the North, but orthodox from the East line for oil wells).
