Re: Application of Tap Rock Operating, LLC, for administrative approval of an unorthodox well location for its WTG Fed Com #205H Well in the W/2 W/2 of Sections 27 and 34, Township 26 South, Range 29 East, N.M.P.M., Eddy County, New Mexico.

Dear Ms. Sandoval:

Tap Rock Operating, LLC (“Tap Rock”) (OGRID No. 372043) seeks administrative approval of an unorthodox well location for its **WTG Fed Com #205H Well** (API No. Pending) to be completed within the Purple Sage; Wolfcamp Pool (98220) underlying the W/2 W/2 of Sections 27 and 34, Township 26 South, Range 29 East, N.M.P.M., Eddy County, New Mexico.

This well will be drilled from a surface location 494 feet from the north line and 470 feet from the west line (Unit D) of Section 27 to a bottom hole location 5 feet from the south line and 1,254 feet from the west line (Lot 9) of Section 34. The first take point will be located 330 feet from the north line and 1,254 feet from the west line (Unit D) of Section 27 and the last take point will be 100 feet from the south line and 1,254 feet from the west line (Lot 9) of Section 34.

Pursuant to Division Order R-14262, this acreage is governed by the Special Rules for the Purple Sage; Wolfcamp (Gas) Pool which provide for wells in the Wolfcamp formation in Eddy County to be located no closer than 330 feet to the outer boundary of the spacing unit. The completed interval for the **WTG Fed Com #205H Well** will be unorthodox because it is closer than 330 feet to the southern boundary of the horizontal spacing unit. Approval of the unorthodox completed interval will allow Tap Rock to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **WTG Fed Com #205H Well** encroaches on the spacing units to the south.

Exhibit B is a land plat for Sections 27 and 34 that shows the proposed **WTG Fed Com #205H Well** in relation to the adjoining spacing units to the south in the N/2 N/2 of Section 5, Block 57, Township 1 North (Loving County, Texas).

Ownership is diverse between the subject spacing unit and the tracts to the south. A copy of this application with all attachments has been sent by certified mail to each affected party advising them that if they have an objection it must be filed in writing with the Division within 20 days from the date the Division receives the application. **Exhibit C** is a list of the parties affected by the encroachment to the south together with the tracking information reflecting notice has been provided.

Exhibit D is a statement from Tap Rock's petroleum engineer confirming that Tap Rock's requested unorthodox location is necessary to optimize well spacing, thereby preventing waste.

Your attention to this matter is appreciated.

Sincerely,

Kaitlyn A. Luck

**Re: Non-Standard Location Request
WTG Fed Com #201H, #205H, #211H and #215H (the "Wells")**

Dear Ms. Sandoval:

Tap Rock Operating hereby requests administrative approval of a non-standard location for each of the Wells referenced above by decreasing the last take points from 330 feet to 100 feet from the horizontal plane outer boundary. The Wells are located in the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220). It is Tap Rock's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the last take point will increase the wells effective lateral length by 230 feet thereby increasing ultimate recovery of reserves and thereby preventing waste of natural resources.

Sincerely,

TAP ROCK OPERATING, LLC
