Mr. Lowe,

Thank you for checking in regarding these applications. No changes were necessary. We provided some additional information to the State Land Office about some XTO wells that were already drilled in Section 36. I understand that the additional information satisfied their concerns. (Andrea, please correct me if I'm mischaracterizing anything.) Please let me know if you need anything else as you process the applications.

Thanks,
Sharon

Ms. Sharon T. Shaheen,

Upon the withdrawal of the protest brought forth by the State Land Office of the two NSL applications for Devon, have the details of the NSL applications changed in reference to the protest resolution?

If they have, please send those changes, changes only, to me to reflect on the applications initially submitted.

If no changes were made, let me know as well.

OCD needs to be made aware if any changes to the applications in order to continue processing them.

Once an update has been received by you, the OCD shall continue to process the NSL applications.

Thank you,

Leonard Lowe
