Subject: FW: PROTEST | 3Bear Field Service - Golden Gate SWD #1, Section 20, T-22S-R35E, Lea Co., NM

Hello Phillip,

On September 12, 2019 Geolex electronically submitted the C-108 for 3Bear's Golden Gate SWD #1. This application was assigned the PO Number 5SUY4-190912-C-1080.

As you can see in the lower email chain, EOG protested the application on the basis of the location of the proposed SWD.

In discussions with EOG, they agreed that they would remove their objection if 3Bear moved the location several hundred feet to the northwest of the original location, to prevent any potential interference with their planned laterals.

3Bear agreed to change the location, and re-noticed the affected parties and published a public notice (copies attached).

Following their receipt of the modified notice, EOG withdrew their protest (see below).

We would like to administratively revise the existing C-108 to reflect the changed location, with no additional changes to the application.

Please let me and/or Alberto know if this is acceptable, or advise us as to the most efficient method for incorporating this change.

Thank,

James C. Hunter, RG
