OFF-LEASE MEASUREMENT

Administrative Order OLM-182

COG Operating, LLC
Attention: Bobbie Goodloe
2208 W. Main Street, Artesia, NM 88210

Pursuant to your application received on November 15, 2019, COG Operating, LLC ("Operator") is hereby authorized to transport and measure oil and gas production off-lease from the wells and associated leases identified in Exhibit A and incorporated by reference into this Order. The wells are located in Section 1, Township 26 South, Range 26 East, NMPM, Eddy County, New Mexico.

The oil production from the wells shall be measured by a lease automatic custody transfer ("LACT") meter and sold at the respective central tank battery ("CTB") described in Exhibit A, except when the CTB is over capacity or unavailable due to maintenance, or the pipeline is unavailable due to maintenance, in which case the oil shall be transported to either the Red Hills Offload Station (Red Hills CTB) located in Unit O, Section 4, Township 26 South, Range 32 East, NMPM, Lea County, New Mexico, or the Jal Offload Station (Jal CTB) located in Unit D, Section 4, Township 26 South, Range 37 East, NMPM, Lea County, New Mexico. When oil is transported to either the Red Hills CTB or Jal CTB, it shall remain segregated and measured by a LACT meter, and Operator shall submit a Sundry Notice C-103 to the Engineering Bureau in Santa Fe.

The gas production from the wells shall be measured by an automatic custody transfer meter and sold at the respective CTB described in Exhibit A.

All meters for the wells shall be physically separated from facilities for other wells, so that production from the wells will not be commingled prior to measurement with production from any other well.

This permit does not authorize the surface commingling of this oil and gas production with production from other pools or leases.

This approval is subject to like approval from the Bureau of Land Management.
