Subject: RE: [EXT] Request for Reversal of Suspension of Oz State SWD #1

Laura,

After a review of the Oz State SWD #1 permit application (SWD-2205), it appears that there is sufficient information regarding notice to affected parties to unsuspend the application. However, the application is currently protested by Judah Oil. Therefore, the OCD is still unable to approve the application administratively. If and when the protest is withdrawn, then the application can be reviewed administratively. In the meantime, the application will be retained pending a hearing or other resolution.

Thanks, and please continue to provide OCD with information regarding the standing of this application and feel free to call me with any questions.

Regards,

Subject: [EXT] Request for Reversal of Suspension of Oz State SWD #1

Hello Kathleen,

We are submitting the following information to support a request for reversal of suspension of Oz State SWD #1 permit application. This is prompted by the belief that the protest filed by Judah Oil will be resolved without going to hearing and we are eager to move forward with administrative review.

R T Hicks Consultants was advised of suspension via email on 7/23/19 from Michael McMillan stating:

Your application is suspended until you provide the affected parties in the following tracts:

NE/4, SE/4 NW/4 and SW/4 SE/4 of section 20. (UL A, B, F, G, H, O)

N/2 N/2 and S/2 NE/4 of section 21 (UL A, B, C, D, G, H)

W/2 NW/4 and NW/4 SW/4 of section 27 (UL D, E, L)

Entire section 28

Entire section 29

N/2 NE/4 of section 32. (UL A, B)

NW/4 NE/4 and NW/4 NW/4 of section 33 (UL B, D)

Response to above identified missing data:

- Some of the areas in question are outside of the 1 mile AOC.
- Much of the area is unleased, represented in white on our maps, which we believe was interpreted as “no data” by reviewer.
- New Plates 2a and 2b have been created to more clearly identify leased and unleased property, surface owners and mineral owners within one mile AOC.
- Table 2 compiled presents this data from Plates 2a and 2b in tabulated format. We have confirmation regarding the areas in section 20 and 21 labeled “other minerals owned by BLM”, includes oil and gas based on review of BLM Master Title Plats. All affected parties on this table have been notified
- Table 1, which identifies wells and operators, is out to 2 miles – has not been revised. All parties identified in this table have been notified other than Texaco – this well was cancelled, lease expired June, 1997 per well information obtained from OCD online, therefore not affected person.
- Our proof of notification identifies parties include affected persons out to 2 miles and therefore includes names not seen on current Table 2 (as it is out to 1 mile AOC). We have actually provided notification beyond what is required.

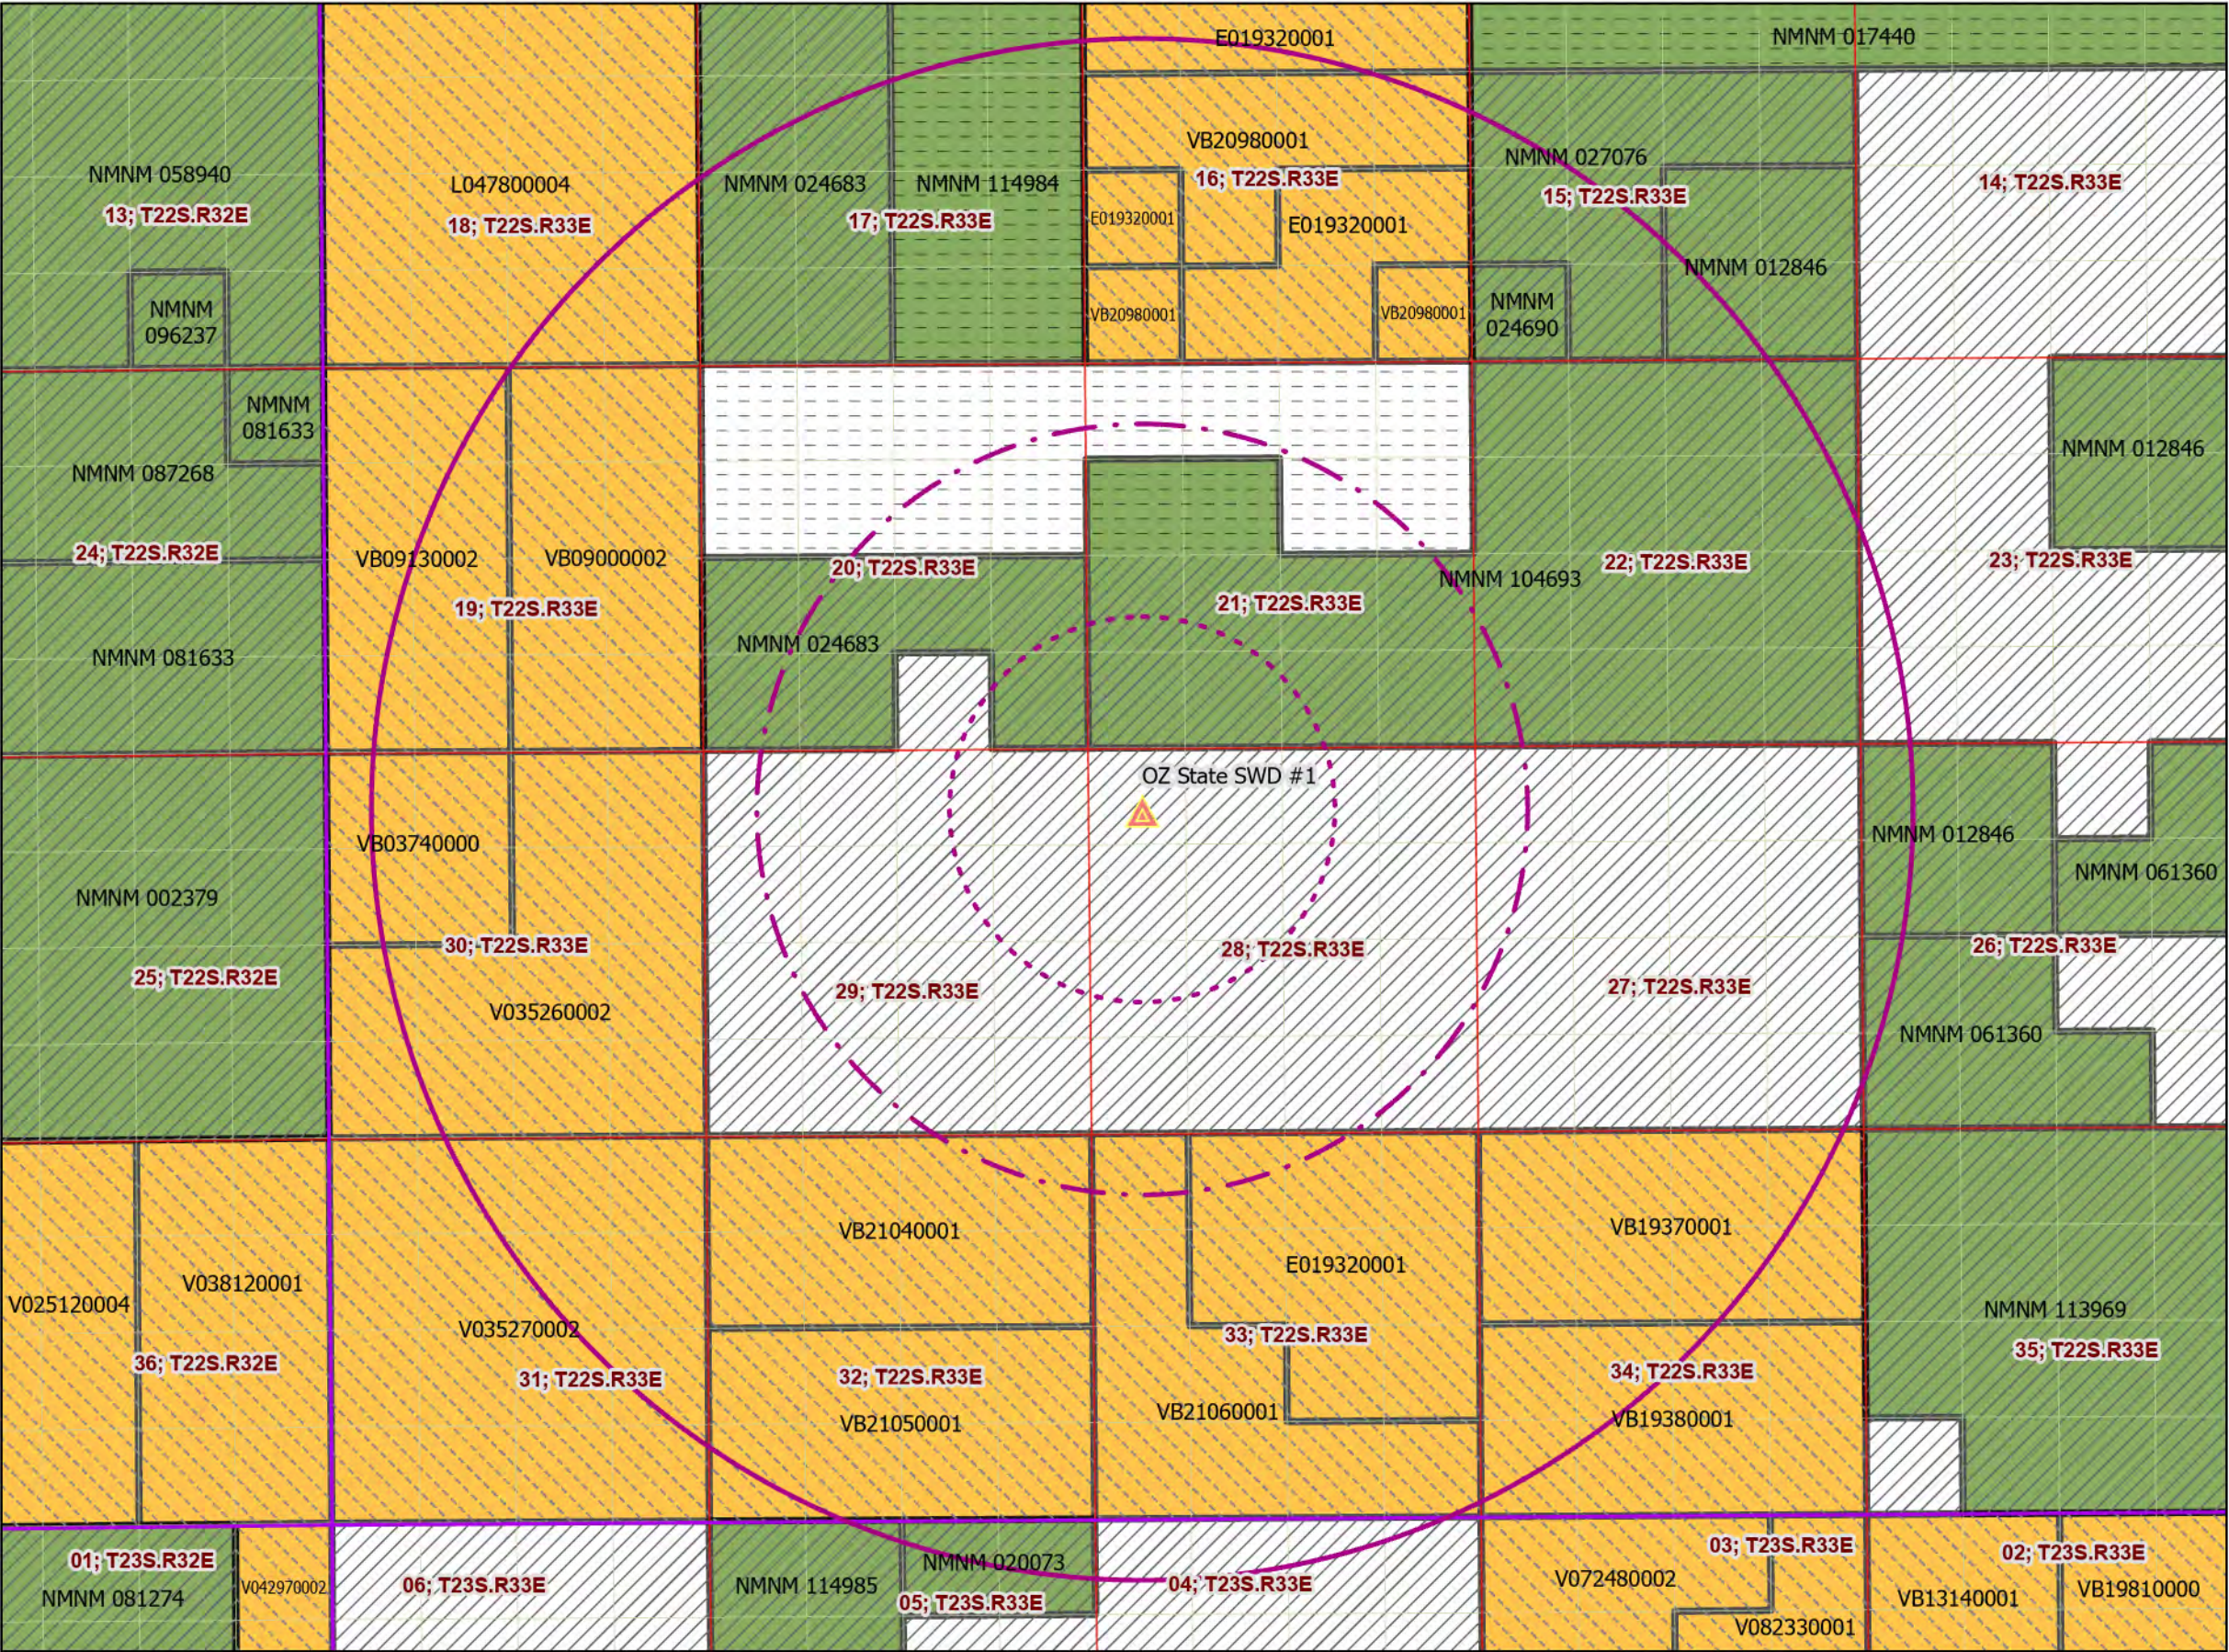

The attached supporting data package provides proof that we have identified and notified all affected persons and therefore respectfully request that the suspension of Oz State SWD #1 is reversed. It is our belief that the protest that has been submitted by Judah Oil will be resolved without going to hearing.

Thank you so much for your consideration to resolve this issue.

Please call me if you have any questions, and I look forward to hearing your response to our request.

Sincerely,

Laura Parker
