Proposed Horizontal Units

<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
W/2 E/2 of Section 10	320.08	Triple X; Bone Spring	59900
W/2 E/2 of Section 3			

Reference is made to your application received on December 24, 2019.

You have requested to drill this horizontal well at an unorthodox oil well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal oil well a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal oil well's completed interval penetrates, each of which consists of a governmental quarter-quarter section or equivalent.

This well's completed interval is as close as 247 feet to the western edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 10, encroachment to the E/2 W/2

Section 3, encroachment to the E/2 W/2

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

Division understands you seek this unorthodox location in order to develop the formation efficiently, to optimize pressures related to the completion of the well and to expect a higher yield of resources, thereby preventing waste within the Bone Spring formation underlying the W/2 E/2 of Section 10 and the W/2 E/2 of Section 3.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, Division approves this unorthodox location.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.
