<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
W2 W2 of Section 19 W2 W2 of Section 30	309.36	Ojo Chiso; Bone Spring South	97293

Reference is made to your application received on January 22, 2020.

You have requested to complete this horizontal well at an unorthodox oil well location described above in the referenced pool or formation. Sub Paragraph (a) of Paragraph (1) of Subsection B of 19.15.16.15 NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal oil well a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal oil well's completed interval penetrates, each of which consists of a governmental quarter-quarter section or equivalent.

This well's completed interval is as close as 254 feet to the western edge. Encroachments will impact the following tracts.

Section 24-T22S-R34E, encroachment to the NE/4 SE/4 & SE/4 NE/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in Paragraph (8) Subsection A of 19.15.2.7 NMAC, in all adjoining units towards which the proposed location encroaches. All waivers were signed; therefore, the notice duration is no longer valid.

The Division understands you seek this location because of difficulties encountered during drilling operations and thereby preventing waste of oil and gas reserves underlying the horizontal spacing unit located within the Bone Spring formation underlying the W/2 W/2 of Section 30 and Section 19 -T22S-R34E.

Your application has been filed under Subsection 6 of Paragraph of Section (C) of 19.15.16.15 NMAC, 19.15.15.13 NMAC and Paragraph (2) of Subsection A of 19.15.4.12 NMAC.

Per Subsection B of 19.15.15.13 NMAC, Division approves this unorthodox location.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.
