Subject: [EXT] Inquiry into current applications

Dear Mr. Harrington,

In an effort to maintain focus on applications that operators would like to prioritize in the current market situation the division is reaching out to them to inquire about how you would like to proceed with your current C-108 submissions. I have attached a list of the C-108 applications that the division is currently tracking for Mewbourne Oil Co. along with the divisions' comments on status. If you could please indicate/communicate back which applications have become a priority, if there are any that you no longer wish to pursue, or if there are any discrepancies between our records and yours it would greatly help to focus efforts on desired projects. If you have any questions please feel free to reach out.

Kind regards,

Baylen Lamkin
