**Re: Application of Devon Energy Production, LP, for administrative approval of an unorthodox well location for its Snapping 12-1 Fed #712H Well in the W/2 of Section 1 and the NW/4 of Section 12, Township 26 South, Range 31 East, N.M.P.M., Eddy County, New Mexico.**

Dear Ms. Sandoval:

Devon Energy Production, LP ("Devon") (OGRID No. 6137) seeks administrative approval of an unorthodox well location for its **Snapping 12-1 Fed #712H Well** (API No. 30-015-47133) to be completed within the Purple Sage Wolfcamp Pool (98220) underlying the W/2 of Section 1 and the NW/4 of Section 12, Township 26 South, Range 31 East, N.M.P.M., Eddy County, New Mexico.

This well will be drilled from a surface location 2475 feet from the north line and 1880 feet from the west line (Unit E) of Section 12 to a bottom hole location 20 feet from the north line and 2210 feet from the west line (Unit D) of Section 1. The first take point will be located 2574 feet from the north line and 2210 feet from the west line (Unit E) of Section 12, and the last take point will be 100 feet from the north line and 2210 feet from the west line (Unit D) of Section 1.

Pursuant to Division Order R-14262, this acreage is governed by the Special Rules for the Purple Sage-Wolfcamp Gas Pool which provide for wells in the Wolfcamp formation in Eddy County to be located no closer than 330 feet to the outer boundary of the spacing unit. The completed interval for the **Snapping 12-1 Fed #712H Well** will be unorthodox because it is closer than 330 feet to the northern and southern boundaries of the spacing unit. Approval of the unorthodox completed interval will allow Devon to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

T 505.988.4421 F 505.983.6043

**Exhibit A** is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Snapping 12-1 Fed #712H Well** encroaches on the drilling and spacing unit to the north in Section 36, Township 25 South, Range 31 East, and to the south in the SW/4 of Section 12.

**Exhibit B** is a land plat for Sections 2 and 11 that shows the proposed **Snapping 12-1 Fed #712H Well** in relation to the adjoining spacing unit to the north in Section 36 and to the south in NW/4 of Section 12.

Ownership is diverse between the subject spacing unit and the affected spacing units to the north and south. **Exhibit C** reflects that a copy of this application with all attachments has been sent by certified mail to each affected person advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

**Exhibit D** is a statement from a Devon's petroleum engineer confirming that Devon's requested unorthodox location is necessary to optimize well spacing, thereby preventing waste.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kaitlyn A. Luck", is written over a horizontal line.

Ladies and Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the New Mexico Oil Conservation Division on this date. Any objection to this application must be filed in writing within twenty days from this date with the applicant and the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division.

If you have any questions about this application, please contact the following:

RE: Application for Nonstandard Locations  
Engineering Statement  
Devon Energy Production Company, L.P.  
Snapping 12-1 Fed 621H, 711H & 712H  
Sections 12 & 1-26S-31E  
Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. respectfully requests administrative approval of a non-standard location for each of the Snapping wells referenced above by decreasing the first and last take point(s) from 330 feet to 100 feet from the horizontal plane outer boundary. The wells are located in the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220). It is Devon's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the last take point will increase the wells effective lateral length by 460 feet thereby increasing ultimate recovery of reserves and preventing waste of natural resources.

Sincerely,

A handwritten signature in cursive script that reads "Paige Bowes".

Paige Bowes  
Reservoir Engineer
