Proposed Horizontal Units

<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
W/2 E/2 of Section 19	240	Dogie Draw; Wolfcamp	17980
W/2 NE/4 of Section 30			

Reference is made to your application received on February 9th, 2021.

You have requested to drill this horizontal well at an unorthodox oil well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal oil well a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal oil well's completed interval penetrates, each of which consists of a governmental quarter-quarter section or equivalent.

This well's completed interval is as close as 187 - 257 feet to the western edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 19, encroachment to the E/2 W/2
Section 30, encroachment to the E/2 NW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches. However, the ownership is identical in the affected tracts therefore, notice is not required.

Division understands you are seeking this unorthodox location due to drilling too close to the unit boundary within the Wolfcamp formation underlying the W/2 E/2 of Section 19 and the W/2 NE/4 of Section 30. Therefore, maximize resource recovery and preventing waste.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.
