Subject: [EXT] RE: RAY WESTALL DHY STATE B SWD WELL #1 - SWD-1582 - REQUEST FOR 2ND EXTENSION - 11,18S,29E, Eddy County, NM - interval 9600-9950'

Thank you Tim – I'll include this information in my formal request for the extension and, I need Apache's agreement also.

Thanks again,
Ben

Subject: RAY WESTALL DHY STATE B SWD WELL #1 - SWD-1582 - REQUEST FOR 2ND EXTENSION - 11,18S,29E, Eddy County, NM - interval 9600-9950'

Hi Phillip:

Mewbourne Oil Company has no objection to the granting of a second SWD permit extension for the above noted well. We are an operator in section 11 and plan to spud our first Bourbon Red HZ wells (TVD approx. 8600') in May. There are existing perforations in the DHY State B well (8870-8942') OA that need to be squeezed. If possible, due to the proximity of these squeezed perforations to our production interval, Mewbourne requests that the granting of the extension be subject to the requirement that a MIT test be performed every two years.

Please contact me if you have any questions.

Tim Harrington
