RE: Explanation for requesting surface commingle

Duncan

Mewbourne Oil Company has requested permission to surface commingle natural gas production from the following leases and wells to a single DCP MM # 724913-00 located in SE/SW Sec 33, T19S, R25E, Eddy Co, NM.

14758 (Long Draw 9 A # 1 30-015-37470, Long Draw 9 H # 1 30-015-37200, & Long Draw 9 BO # 1H 30-015-38309)  
14758 (Gunsmoke 9 CD # 1H 30-015-38239 & Gunsmoke 9 EF # 1H 30-015-37685)  
14758 (Long Draw 4 I # 1 30-015-37202, Long Draw 4 JL # 1H 30-015-37585, & Fast Draw 4 EH # 1H 30-015-38636)  
6031 (West Draw 5/8 PH # 1H 30-015-38674)

MOC will have allocation gas meters on each off these Batteries prior to it being commingled into the common line and sales point. The allocation meters will be Total Flow EFM (6413) on everyone of the batteries and will be kept in good working condition capable of allocating natural gas production back to a single sales point (the DCP MM 724913-00).

This commingle request is for the natural gas phase only. This commingle will not effect the oil phase.

The reason for this commingle is to reduce the amount of Master meters and pipelines to the DCP sales point. The DCP MM is located approximately 2 ½ miles from each of these facilities. Without this approved commingle MOC would need to lay additional 7 gas pipelines along the same ROW and place an additional 7 DCP MM. This cost would be approximately \$35,000 per DCP MM & \$25,000 per gas line and \$10,000 for ROW. The cost is not the only problem with the laying the lines. More surface lines are confusing and not exactly aesthetically pleasing.

Re: Application for Surface Commingling  
Yeso Field  
Section 4, 5, 8, 9, 10, 14, 15 and 21  
Township 20 South, Range 25 East  
Eddy County, New Mexico

Dear Mr. and Mrs. Shildneck:

Mewbourne Oil Company (Mewbourne) has filed an application with the New Mexico Oil Conservation Division (Division) seeking authorization to surface commingle natural gas production from the following facilities:

West Draw 5/8 PH Federal Battery (1 well)  
Long Draw 4 I Federal Battery (3 wells)  
Long Draw 9 H Federal Battery (3 wells)  
Gunsmoke 9 Federal Battery (2 wells)  
Limousine 15 Federal Battery (2 wells)  
Long Draw 10 Federal Battery (3 wells)  
Quick Draw 14 Federal Battery (2 wells)  
Pine Box 21 CN Federal Battery (1 Well)

to a common sales point located in Unit (N) Section 33, T19S, R25E, Eddy County, New Mexico.

Mewbourne will have allocation gas meters on each of these batteries prior to it being commingled into the common line and sales point. The allocation meters will be on every one of the batteries and will be kept in good working condition capable of allocating natural gas production back to a single sales point.

This commingle application is for the natural gas phase only and will not affect the oil phase.

The reason for this commingle application is to place all wells that include Federal minerals to a common sales point. The Bureau of Land Management (BLM) is not approving surface commingle applications between Federal and Fee or Federal and State leases. The BLM has stated that they are now revoking prior surface commingling orders of this type. Mewbourne will place all Fee leases in the above captioned area into a separate master meter and all Federal leases into one meter.

Surface Commingling Application  
July 7, 2011  
Page 2 of 2

If you object to the application, you must notify the Division in writing no later than 20 days from the date of this letter (the Division's address is 1220 South St. Francis Drive, Santa Fe, New Mexico 87505). Failure to object will preclude you from contesting this matter later.

Should you have any questions regarding the above, please email me at [cmitchell@mewbourne.com](mailto:cmitchell@mewbourne.com) or call me at (432) 682-3715.

Sincerely,

**MEWBOURNE OIL COMPANY**

Hello Mr. Terrell,

Am processing this application for surface lease commingling and noticed that several of these wells are still classified as Cemetary; Yeso Pool. I looked at each of these and it appears they actually should be in the N. Seven Rivers; Glorieta- Yeso Pool.

Would you please file a new C-102 form for each well showing the corrected Pool and send me a copy of each C-102 - for only the wells shown above?

I can then release this permit.

Our geologists are the Pool meisters, so if I am incorrect on any of these, the new district geologist in Artesia or Paul Kautz will let you know.

Thank You,
