Re: Amended Application of Anthem Water Solutions, LLC to permit for saltwater disposal in proposed Armadillo 362528 State SWD 1 well to be location in Section 36, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico

To Whom it May Concern:

The original application states that the surface location of the Armadillo 362528 State SWD 1 would be 2538 feet from the North line and 386 from the East line, in Section 36, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico. The amended location will be 1654 feet from the South line and 250 feet from the East line, in Section 36, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico. There are no other changes to the original application.

Enclosed is an amended for C-102 showing the correct footage call for the surface location along with the correct maps required for the C-108. This amendment is being made to satisfy concerns by EOG Resources, Inc. "EOG". Their concerns have been addressed and EOG Resources, Inc. "EOG" has agreed to waived objections to this well given this change of location.

This change in location will not affect any other part of the application. The new AOR does not include and wells that were not addressed originally. Further, no additional adjacent operators were identified after the move, so no additional notifications are required. All other attachments to the original C-108 have not changed. The surface owner is New Mexico State Land Office, Anthem is copying them on this letter, so they are aware of the new location.

If you or your staff have any questions or require additional information, please do not hesitate to contact me.

Marshall –

This revised application satisfies EOG.

Thanks,  
Katie

Katie,  
Our original application states that the surface location of the Armadillo 362528 State SWD 1 would be 2,538' FNL and 386' FEL, in Section 36, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico. Our proposed new location location would be 1,654' FSL and 250' FEL, in Section 36, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico. This falls within the SE SWD Location Area on the map that you sent me yesterday. Please let me know if this new proposed location looks suitable to EOG, if so we will go ahead and submit this revised information to the OCD (map attached).

Let me know if there is additional information I can provide.

Sincerely,

**Marshall Tippen**

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Marshall,

Thanks for the quick call. As a recap:

1. EOG will be protesting Anthem's current proposed location.
2. EOG would be more agreeable to a location indicated in any of the red boxed areas in the same section (Section 36, T25S-R28E) as outlined on the attachment.
  - a. Moving the surface location to one of these areas would remove the well from our future well paths.

Let me know if you have any questions!

Thanks,  
Katie
