

10/13/21

**Advanced Wireless Communications, LLC, Operator 371710
Pending Well Transfer / 19.15.5.9 NMAC Compliance
ACOI Request**

To whom it may concern,

I would like to request to enter into an agreed compliance order for the following 11 wells. We will shortly be submitting C-145 transfers for these wells from DJR Operating, LLC 371838. All 11 of these wells are non-compliant due to their inactive status. We plan to bring these wells into production in the months of October, November and December 2021, following a successful and approved well transfer.
