

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

IN RE BXP OPERATING, LLC

CASE NO. Unassigned

STIPULATED FINAL ORDER

Pursuant to the New Mexico Oil and Gas Act ("Act"), NMSA 1978, Section 70-2-1, *et seq.*, and 19.15.5.10(C) NMAC, the Director of the Oil Conservation Division ("OCD") and BXP Operating, LLC, OGRID #329487 ("Operator"), enter into this Stipulated Final Order ("Order") to resolve the above-referenced matter.

1. OCD is charged with the administration and enforcement of the Act and the implementing rules, and has jurisdiction to regulate Operator's wells in the state of New Mexico.

2. Operator is the operator of record for the wells listed in **Exhibit A**.

3. On February 21, 2022, OCD issued a Notice of Violation ("NOV") to Operator, in accordance with 19.15.5.10 NMAC, alleging that Operator exceeded the number of inactive wells allowed by 19.15.5.9(A)(4)(c) NMAC.

4. Operator requested informal resolution of the NOV.

5. Operator admits the alleged violation.

6. To resolve the alleged violations, Operator agrees as follows:

(a) Operator shall plug and abandon at least 12 wells identified in **Exhibit A** per quarter beginning in June 2022, until all 158 wells are brought into compliance. If Operator plugs and abandons more than the required number of wells within any quarter, Operator may count the extra wells plugged against future quarterly plugging requirements. For purposes of this requirement, wells will be considered plugged and abandoned once Operator receives approval of release of the well from OCD;

(b) Operator shall file C-103 (Notice of Intent to Plug) forms at least 30 days in advance of planned plugging dates, and Operator shall otherwise comply with all notice and form requirements, including but not limited to submissions required in 19.15.7.14 NMAC;

(c) Operator shall not exceed the number of inactive wells allowed under 19.15.5.9(A)(4)(c) NMAC (seven wells), among any wells not listed in **Exhibit A**. If Operator exceeds seven inactive wells not referenced in this Order and compliance schedule within 18 months of the effective date of this Order, Operator agrees to pay daily stipulated civil penalties identified in paragraph 8 for each well in violation, until Operator demonstrates compliance;

(d) No later than the 15th day of the month following the end of each quarter following execution of this Order, Operator shall file a report describing the action taken for each Well, and such other information as OCD may request from time to time. The report shall be sent by electronic mail to OCD's Administrative and Compliance Bureau, at OCDAdminComp@state.nm.us;

(e) If Operator determines that any well currently identified in **Exhibit A** and planned to be returned to production or reactivated is unable to be returned to production or reactivated, Operator must notify OCD by September 1, 2022 that the well must be plugged and abandoned, and will complete the plugging and abandonment consistent with quarterly plugging requirements. If Operator determines it is appropriate to return to production or reactivate any of the wells that Exhibit A identifies as wells that will be plugged and abandoned, Operator will notify OCD and will return the well to production or reactivate the well within 30 days thereafter.

(f) Operator agrees to provide copies of all relevant reports for any well on a state lease to the New Mexico State Land Office at compliance@slo.state.nm.us;

(g) Operator agrees to pay a civil penalty in the amount of \$20,000.00.

8. If Operator fails to comply with an obligation in Paragraph 6(a)-(e), Operator shall pay a stipulated penalty of \$500.00 for each day for each obligation until it demonstrates compliance with the obligation.

9. If Operator fails to pay the agreed civil penalty, any future stipulated penalty, or any portion thereof no later than 30 days after OCD gives notice that such stipulated penalty has accrued, it shall pay interest on the stipulated penalty or unpaid portion thereof until paid in full at the interest rate of 8.75 percent as provided in NMSA 1978, § 56-8-4(A).

10. Operator admits OCD's jurisdiction to file the NOV, consent to the relief specified herein, and waive the right of review by the Oil Conservation Commission.

11. Operator understands and agrees that this Order does not resolve any dispute or claim concerning any party which is not a signatory of this agreement.

12. The persons executing this Order represent that they have the requisite authority to bind their respective parties and such representation shall be legally sufficient evidence of their actual or apparent authority.

13. Operator shall not transfer any well subject to this Order to any other operator without prior approval of the OCD. However, OCD will approve the transfer if the prospective buyer accepts all obligations under this Order or a similar Order. Operator shall provide written confirmation to OCD of the notice and acceptance.

14. If Operator fails to plug a Well as required by this Order and compliance schedule, OCD retains the right to plug such well with prior written notice to the Operator of its failure to plug consistent with the requirements of this Order.

15. Notwithstanding the foregoing provisions;

a. OCD reserves the right to apply for authorization to plug a Well and to

forfeit the financial assurance if the Well poses an imminent threat to public health or the environment.

- b. OCD reserves the right to sanction Operator for any alleged violation not addressed in this Order.

16. OCD may extend any of the deadlines contained in this Agreement for good cause shown.
