**Subject:** RE: initial c-141 form report

Mr. de la Cruz,

NMOCD is in receipt of the form C-141 submitted for a release of produced fluids, discovered 6/13/2011, at the Southern California 14 Fed 1 (30-015-04600). Please proceed with the investigation/delineation of the site. Provide NMOCD copies of any and all analytical data obtained from the site, and a proposal for remediation of the site.

Be advised of reporting requirements, to NMOCD, for produced fluid releases in the state of New Mexico. Any fluid release over 25 barrels requires "immediate" verbal notification. Immediate, by rule, is within 24 hours of discovery. This notification is to be followed up by submittal of the form C-141 within 15 days of discovery. A release in volume greater than 5 barrels, but less than 25 barrels, requires submittal of the C-141 within 15 days of discovery (immediate notification not required). Reporting to NMOCD is required regardless of surface or mineral ownership, and is the responsibility of the operator of record. All produced fluid releases (including less than 5 barrels) require remediation by the responsible party/operator of record. Reporting requirements by any other regulatory authority is in addition to NMOCD requirements, and is the responsibility of the operator.

NMOCD currently shows Tom R Cone (OGRID # 188152) as operator of record for this well.

If you have any questions or concerns, please contact me.

Thank you,

***Mike Bratcher***

Dear Mr. Bratcher,

It has come to my attention that we have a problem with one of the wells that is located in your district. The BLM has notified W/K Land Company that the SO California 14 Federal #1 well is leaking oil from the storage tank. We are not the operators but we will assume the responsibility to clean up the well since we have a 50% interest in this federal lease in accordance to the BLM regulations.

We have hired Ike Tavaréz, Senior Project Manager, with Tetra Tech to help us clean up the spill in accordance to the N.M.O.C.D. He can be reach at 432-682-4559 should you have any questions.

I would like to thank in advance for your cooperation and assistance with this matter. I do hope the following meets your approval as we are in the process to get started in this project. I can be reach at 303.442.0258 or 303.720.1211 should you have any further questions.

Sincerely,

Carlos A. de la Cruz  
W/K Land Company  
911 Kimbark Street  
Longmont, Colorado 80501
