If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
The release was caused by trucks not arriving on time to haul off oil from the tanks.					
Describe Area Affected and Cleanup Action Taken.*					
Initially 23bbbs were released from the oil tank and we were able to recover 22bbbs with a vacuum truck. The entire release was completely contained inside the dike walls of the tank battery. This tank battery is lined with 40mil plastic. All standing fluid has been picked up. Any stained gravel has been removed and fresh gravel has been added as necessary. The tank battery has been returned to its prior location.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
