Describe Cause of Problem and Remedial Action Taken.\*

Separator went off on high level and oil was spraying out a vent line. Lease Operator shut well in and left it down until separator is repaired.

Describe Area Affected and Cleanup Action Taken.\*

Area impacted was an area approximately 30'x70'. Area will be scraped about 2" of f surface and we will bring in new soil to remediate.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
