**Subject:** Anticipated Actions Approval (2011 Report) (AP-63) - Plains 34 Junction South Station Release Site

**RE: Annual Monitoring Report (2011) for the Plains Marketing's  
34 Junction South Station Release Site (AP-063)  
Unit L, Section 2, T17S, R36E, NMPM, Lea County, New Mexico  
Anticipated Actions Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Anticipated Actions") the above-referenced site (dated March 2012). The above-referenced report, submitted in partial fulfillment of 19.15.30.19 NMAC (Rule 30.19, formally, Rule 19.K), indicates that Plains has partially met the requirements of 19.15.30.9 NMAC for this site. Therefore, the OCD hereby conditionally approves the Anticipated Actions for the 34 Junction South Station Release Site:

Plains must submit a plan to the OCD to be included in the next Annual Monitoring Report for the installation of a groundwater monitoring well downgradient of MW-12 at the 34 Junction South Station Release Site.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

**Subject:** Anticipated Actions / Proof of Public Notice Approval (AP-063) - Plains 34 Junction South Station Release Site

**RE: Annual Monitoring Report (2010) for the Plains Marketing's  
34 Junction South Station Release Site (AP-063)  
Unit L, Section 2, T17S, R36E, NMPM, Lea County, New Mexico  
Anticipated Actions / Proof of Public Notice Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Anticipated Actions") the above-referenced site (dated March 2011). The above-referenced report, submitted in partial fulfillment of 19.15.30.19 NMAC (Rule 30.19, formally, Rule 19.K), indicates that Plains has partially met the requirements of 19.15.30.9 NMAC for this site. Therefore, the OCD hereby conditionally approves the Anticipated Actions for the 34 Junction South Station Release Site:

Plains must not limit the analyses for PAHs to MW-13 only at the 34 Junction South Station Release Site.

Also, the OCD hereby approves the proof of public notice submitted November 12, 2008, for the approved Abatement Plan (AP-063) [approved by the OCD on October 22, 2008].

Please be advised that OCD approval of this report and proof of public notice does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.
