Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	

If a Watercourse was Impacted, Describe Fully *

Describe Cause of Problem and Remedial Action Taken.* A section of the 3" steel injection line had been replaced sometime in the past The pipe was used to fix the leak at that time, it was not coated like the original steel line and weekend over time and finally gave way to the high line pressure -Steel pipeline/ corrosion

Describe Area Affected and Cleanup Action Taken * Hungry Horse dug up around the line to expose leak and put dirt on plastic Waiting to hear from BLM to finish cleanup

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
