Subject: Undesirable Event: NU12025TG, Keel West Waterflood Plant: Archeological clearance; spill map attached; BLM Ranger notification

This notification is in regard to the following location and undesirable event:

Event Number: NU12025TG
Event Date: 10/27/2011
Event Name: Keel West Waterflood Plant-H E West B 77
Legals: T17S/R31E, sec. 4, SESE

The spill event at the above location has been assessed. The spill is contained on the facility pad and within containment berms except for a small amount of light spray on the east side of the spill site. There are no archeological concerns with this spill site. The operator can proceed with delineation and cleanup.

Since this spill was created by an unauthorized disposal into the battery tanks by an unknown person(s), I am forwarding a copy of this to the BLM Ranger, Mark Coffield. If the operator obtains any more information on this incident, or has any similar incidents of vandalism or theft, please notify the BLM at your earliest convenience.

Thank you for your attention to this matter,

Terry Gregston
