RE: Request for Administrative Approval  
Unorthodox Well Location  
Weatherly 21 # 2  
800' FNL & 2450' FEL - Unit B  
Section 21, T21S - R37E  
Lea County, New Mexico 87505

Dear Mr. Fesmire:

John H. Hendrix Corporation requests administrative approval for a non-stand location for the Weatherly 21 No. 2. This well is currently at its economic limit in the Wantz Fusselman.

John H. Hendrix Corporation proposes to recomplete this well in the Penrose Skelly Grayburg which is at an unorthodox location. The existing non-standard location (Administrative Order NSL-4556) was approved February 28, 2001. This location was approved because geologic interpretation submitted with the original application indicated that a well drilled at the unorthodox oil well location was a more favorable geologic position in the Wantz Fusselman Pool.

It is now recommended to recomplete the well in the Penrose-Skelly Grayburg. To support this request we submit the following information.

30-025-35523  
~~35523~~

2005 MAR 9 PM 1 18

March 7, 2005

1. The lease consists of 240 acres with royalty and working interest being uniform under the 240 acres.
2. NMOCD Form C-102 for the Weatherly 21 No. 2 is attached.
3. Map of Section 21 with the Weather 21 Lease outlined and offset operators noted.
4. Copy of letter sent by certified was to offset operators of the Weatherly Lease is included.
5. It is noted that the location is 800 feet from the lease line and does not affect offset leases. The well is only 190 feet from the proration unit and thus necessitates being a non-standard location.
6. Approval of this application will prevent waste by not having the expense of drilling a new well. As we have a farm out obligation and drilling rigs are hard to obtain, an early reply to this request will be appreciated.

Thank you for your consideration in this matter. If you have any questions, please give me a call.

Yours very truly,

Ronnie H. Westbrook  
Vice President
