AMENDED ADMINISTRATIVE ORDER DHC-769

Exxon Company, USA
P.O. Box 1600
Midland, TX 79702-1600

Attention: Michael W. Andrews

*New Mexico "S" State Well No. 37
Unit C, Section 2, Township 22 South, Range 37 East, NMPM, Lea
County, New Mexico.
Wantz-Abo and Wantz-Granite Wash Pools*

Dear Mr. Andrews:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 50 barrels per day, and total water production shall not exceed 100 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by the top unit allowable for the Wantz-Granite Wash Pool.

In accordance with the provisions of Rule 303-C, the supervisor of the Hobbs District Office of the Oil Conservation Division shall determine the proper allocation of production from the subject well following its completion.

*Amended Administrative Order DHC-769
Exxon Company, USA
February 11, 1991
Page 2*

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 11th day of February, 1991.
