**Re: Administrative Order SWD-1228**

Delaware River Unit Well No. 2 (API 30-015-24784)  
1980 FNL, 990 FWL, Unit E of Sec 11, T26S, R28E, NMPM, Eddy County  
Dispose into the Delaware Mountain Group, Depths: 2642 to 4934

You have submitted a request on behalf of Mesquite SWD, Inc., for an extension of this disposal permit beyond the previously granted 1/11/2012 deadline to commence injection for the reasons outlined in the attached correspondence.

The Division finds that granting this request to extend this injection permit is in the interest of conservation and will prevent waste and protect the environment.

All requirements of the above referenced injection permit and agreements in the application remain in full force and effect.

The deadline to commence injection is hereby extended until July 11, 2012.

JAMI BAILEY  
Director

Re :Request for Extension  
Mesquite SWD, Inc SWD-1228  
API 30-015-24784

Dear Mr. Jones:

The location of the Delaware River Unit Well No. 2, SWD-1228, is adjacent to US-285 near the State line, where electric power has long been in very short supply. New supplies are now in the process of being installed and should be available within the next few months. Mesquite is also attempting to arrange for a re-entry unit. As the conditions of the SWD permit require disposal be in progress on or before January 11, 2012, an extension is respectfully requested.

Mesquite respectfully requests a six (6) months extension for SWD-1228.

Should you have any questions or concerns regarding this request please contact the undersigned by telephone at the above number, or by e-mail to [KHavenor@georesources.com](mailto:KHavenor@georesources.com).

Respectfully submitted,

Kay Havenor, PG  
Agent on behalf of Mesquite SWD, Inc.

**Jones, William V., EMNRD**

**Subject:** Additional SWD-1228 comment

Will,

I failed to note that no new wells have been drilled in the AOR. There is Bone Springs activity in area - that is why we are getting the electricity.

Kay
