Dear Ms. Smith:

Reference is made to the following:

(a) your application (**administrative simultaneous dedication [SD] application reference No. pTGW11-34128649**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on December 1, 2011, and

(b) the Division's records pertinent to your request.

Simultaneous Dedication Application

Huntington Energy, L.L.C. (Huntington) has requested to simultaneously dedicate the above described gas wells to a standard, 160-acre gas spacing and proration unit in the Barker Creek; Dakota Gas Pool (Pool Code 71520), comprising the southwest quarter of Section 15.

Your application has been duly filed under the provisions of Division Rules 19.15.15.11.C and 19.15.4.12.A.9 NMAC.

It is our understanding that you are seeking simultaneous dedication of this unit to the wells described because the Ute Mountain Ute Well No. 114 will explore a new horizon within the Dakota formation, not tapped by the existing Barker Dome Well No. 21

We also understand that Burlington Resources Oil & Gas Company, L.P., the operator of the existing well in this spacing unit and the only offset operator to this spacing unit, has expressly consented to the granting of this application

Ordering Provisions

Pursuant to the authority conferred by Division Rule 19.15.15.11.C NMAC, the above-described simultaneous dedication is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 19.15.5.9 NMAC.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

Jami Bailey
Director
