## Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission-regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Please complete and submit a separate questionnaire for each facility within 30 days of your receipt of this form.

• Name of the owner or operator of the facility

Weatherford U.S., L.P.

• Point of contact

Name Cecil Jacobson  
Telephone 801-491-0527  
Email Cecil.Jacobson@Weatherford.com  
Mailing address 735 E 1400 N Mapleton, Utah 84664

Facility name Weatherford Controlled Pressure Drilling Services

• Facility location

Unit Letter, Section, Township, Range SW/4, or NW/4, of Sec 19, T 29 N, R 12 W.  
Latitude, Longitude (Decimal Degrees) 36.71425 - 108.14695  
Street address (if any) 5432 U.S. Hwy 64, Farmington, NM 87401

• Facility type

- Refinery
- Crude Oil Pump Station
- Geothermal Well
- Other describe) \_\_\_\_\_
- Gas Plant
- Injection Well
- Compressor Station
- Service Company

Oil & Gas Facilities Inventory Questionnaire

Page 2 of 3

• **Current and Past Operations** (please check all that apply)

- Impoundments       Treatment Plant       Waterflood  
 Disposal Well       Brine Well       Wash Bay  
 Steam Cleaning       Ground Water Remediation

• **Facility Status**       Active       Idle       Closed

• **Does this facility currently have a discharge permit?**       Yes       No

If so, what is the permit number? GW-126

• **Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water?** (This includes process activities, equipment maintenance, or the cleanup of historic spills:)

- Yes       No

If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.

---

---

---

---

---

• **What is the depth below surface to shallowest ground water in the area?** 30-45 ft

• **Are there any water supply, ground water monitoring, or recovery wells at the facility?**

- Water supply       Monitoring       Recovery

If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? \_\_\_\_\_

• **Are abatement actions ongoing?** NO

If so, please describe.

---

---

---

• **Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility?**       Yes       No

If so, what are the API numbers assigned to those wells?

---

---

- **Are there any sumps at the facility?**  Yes  No  
Number of sumps with volume less than 500 gallons 2-  
Use and contents one not used, the other is for washing operations.  
Is secondary containment incorporated into the design?  Yes  No  
Number of sumps with volume greater than 500 gallons 3  
Use and contents Wash water.  
Is secondary containment incorporated into the design?  Yes  No
- **Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers?**  Yes  No  
If so, what do those buried lines contain?  
2" PVC Gravity flow line, Wash water.

**THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION WITHIN 30 DAYS OF YOUR RECEIPT OF THIS FORM.**

Questions? Please contact Glenn von Gonten at 505-476-3488.

Thank you for your cooperation.

**MARCH 1, 2012**

Mr. Don Dunbar  
Environmental Project Manager  
Weatherford International  
515 Post Oak Blvd.  
Houston, TX 77027

Dear Mr. Dunbar:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permits have already expired or will soon expire.

- |               |   |
|---------------|---|
| <b>GW-075</b> | <b>Weatherford Hobbs Facility</b>       |
| <b>GW-347</b> | <b>Weatherford Farmington Facility</b>  |
| <b>GW-281</b> | <b>Weatherford Farmington Facility.</b> |
| <b>GW-126</b> | <b>Weatherford Farmington Facility.</b> |

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/ocd>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.

Mr. Dunbar
